Day 64: Suspensions: preparation, suspension, resolution

G7 Decoration · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *"A suspension is like holding your breath for a moment before the music relaxes."*

- A suspension has three parts. Preparation: the note is heard as a concord. Suspension: it is held (tied) as the chord changes, clashing on the strong beat. Resolution: it falls a step to a note of the new chord.
- Suspensions make music flow and add expressive tension, especially at cadences.
- The note it falls to (the resolution) should not be doubled in another part (except in a 9–8).

Worked example

Name the three parts of a suspension.

1. Preparation: the note sounds as part of a chord (a concord).
2. Suspension: it's held as the chord changes and clashes.
3. Resolution: it falls one step to a note of the new chord.

Watch out for

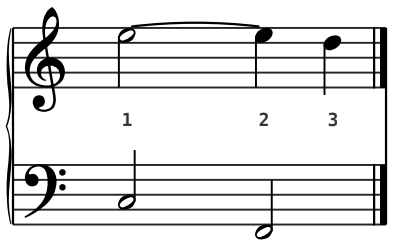

- Resolving upwards.
- Forgetting to prepare it (that makes it an appoggiatura).

In the exam: Question 2 asks for suspensions; questions 4 and 5 may ask you to find one.

Show him these cards

1

A suspension: preparation (concord) → suspension (held, clashing on the beat) → resolution (down a step).

2

The suspension makes the music lean forward.

3

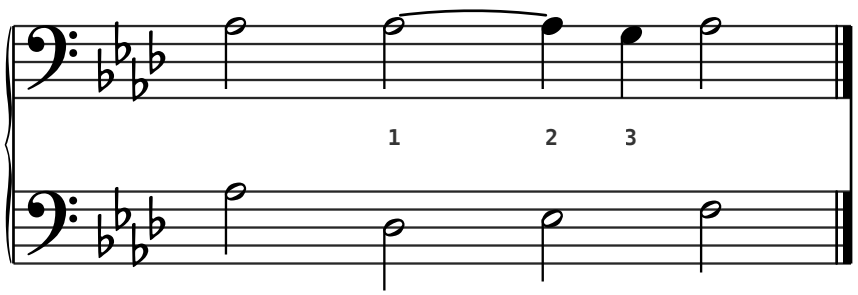

Don't double the note it resolves to.

3 · DO TOGETHER (10 MIN)

- Find the three parts of each suspension in the lesson pack example.

Four questions to work through together

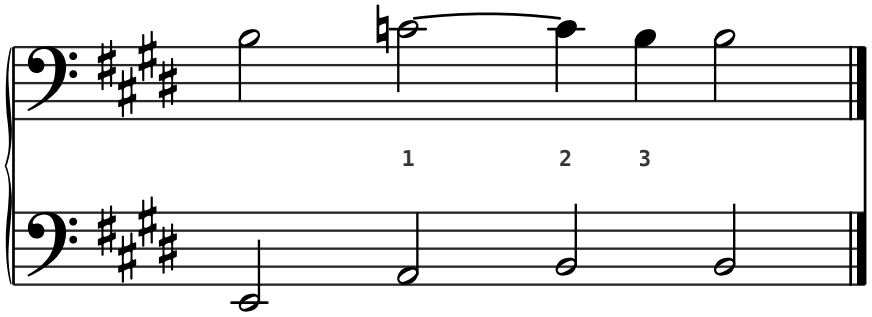

1. Note 2 is a suspension over the bass. What kind? (A♭ major)

A. 7–6 B. 9–8 C. 4–3 D. 2–3

Answer: 4–3. Note 2 (A♭) is held over from note 1 and makes a 4th above the bass E♭; it falls to G, a 3rd. So it's a 4–3 suspension.

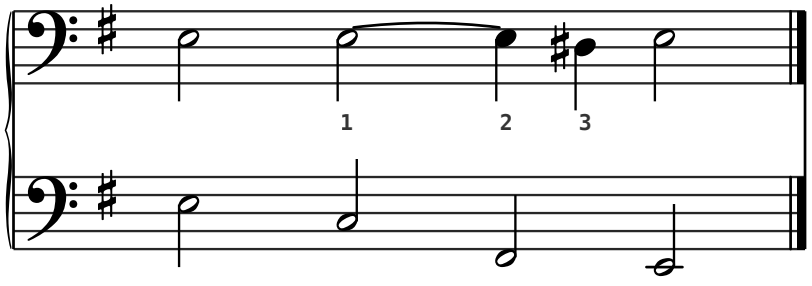

2. Note 2 is a suspension over the bass. What kind? (E major)

A. 4–3 B. 2–3 C. 7–6 D. 9–8

Answer: 9–8. Note 2 (C) is held over from note 1 and makes a 9th above the bass B; it falls to B, a octave. So it's a 9–8 suspension.

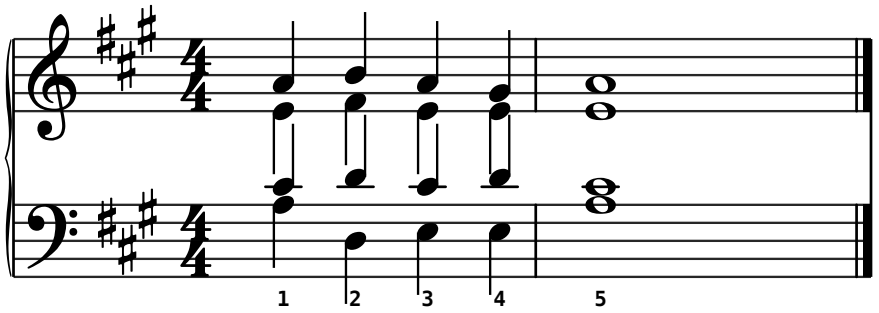

3. Note 2 is a suspension over the bass. What kind? (E minor)

A. 7–6 B. 2–3 C. 9–8 D. 4–3

Answer: 7–6. Note 2 (E) is held over from note 1 and makes a 7th above the bass F♯; it falls to D♯, a 6th. So it's a 7–6 suspension.

4. Where could you add a suspension? (A major)

A. alto, into chord 5 B. tenor, into chord 5 C. alto, into chord 2 D. soprano, into chord 3

Answer: tenor, into chord 5. In the tenor, hold D from chord 4 into chord 5, then fall to C♯: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

4 · ON HIS OWN (12 MIN)

- Suspensions practice.

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Tie and fall: sing the preparation, hold, then fall.

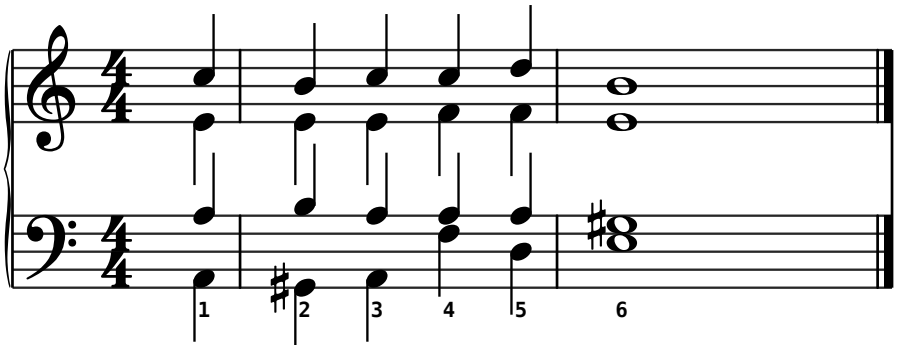

MOVE ON WHEN

He labels preparation, suspension and resolution.

Philip's worksheet · Day 64

Name _____ Date _____ Score ___ / 8

1. Where could you add a suspension? (A minor)

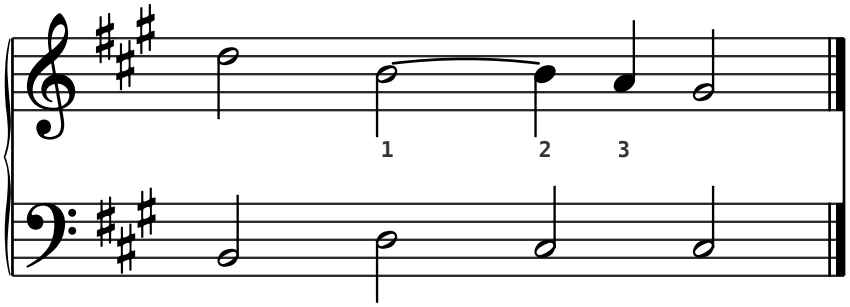

A. soprano, into chord 2 B. tenor, into chord 6 C. soprano, into chord 4 D. alto, into chord 4

2. Note 2 is a suspension over the bass. What kind? (F major)

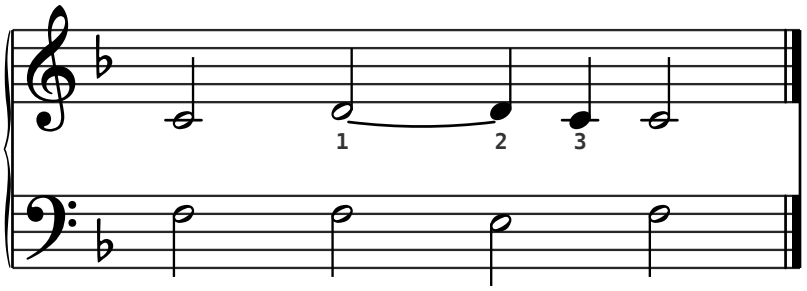

A. 2–3 B. 9–8 C. 7–6 D. 4–3

3. Note 2 is a suspension over the bass. What kind? (F♯ minor)

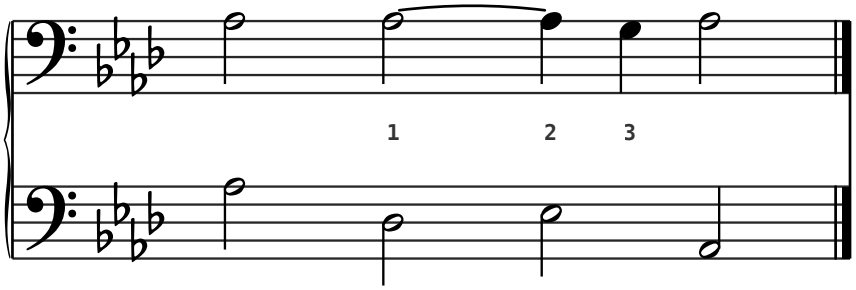

A. 2–3 B. 4–3 C. 9–8 D. 7–6

4. Note 2 is a suspension over the bass. What kind? (F major)

A. 7–6 B. 4–3 C. 2–3 D. 9–8

5. Note 2 is a suspension over the bass. What kind? (A♭ major)

A. 2–3 B. 9–8 C. 7–6 D. 4–3

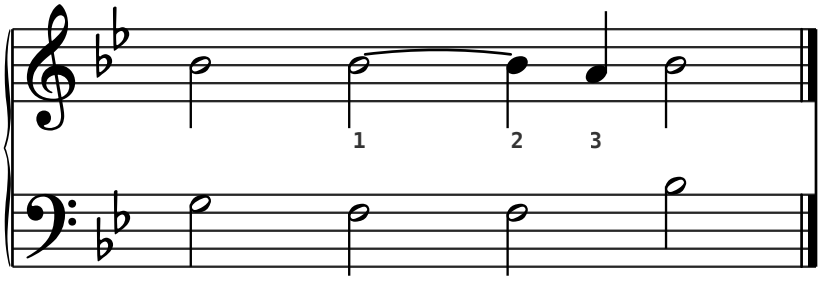

6. An échappée (escape note)…

A. steps away from a chord note, then leaps back the other way B. is a held note C. always falls on a strong beat D. repeats the previous note

7. The most common suspension at a perfect cadence is…

A. 7–6 over IV B. 4–3 over V C. 9–8 over I D. 2–3 over V

8. In this suspension, which note is the resolution? (B♭ major)

A. Note 3 B. Note 1 C. Note 2

ANSWERS (FOR MUM)

1. **B: tenor, into chord 6**. In the tenor, hold A from chord 5 into chord 6, then fall to G♯: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
2. **D: 4–3**. Note 2 (C) is held over from note 1 and makes a 4th above the bass G; it falls to B♭, a 3rd. So it's a 4–3 suspension.
3. **D: 7–6**. Note 2 (B) is held over from note 1 and makes a 7th above the bass C♯; it falls to A, a 6th. So it's a 7–6 suspension.
4. **A: 7–6**. Note 2 (D) is held over from note 1 and makes a 7th above the bass E; it falls to C, a 6th. So it's a 7–6 suspension.
5. **D: 4–3**. Note 2 (A♭) is held over from note 1 and makes a 4th above the bass E♭; it falls to G, a 3rd. So it's a 4–3 suspension.
6. **A: steps away from a chord note, then leaps back the other way**. Échappée: step out, leap in the opposite direction to the next chord note.
7. **B: 4–3 over V**. The tonic is held over the dominant bass (a 4th) and falls to the leading note (the 3rd): 4–3 over V.
8. **A: Note 3**. Note 1 is the preparation (a concord, tied over). Note 2 is the suspension: the same note, now clashing with the new bass on the strong beat. Note 3 is the resolution, a step down.

Day 65: 4–3, 7–6, 9–8 and 2–3

G7 Decoration · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *“Name a suspension by counting from the bass to the clash, then to the resolution.”*

- Suspensions are named by their intervals above the bass: 4–3 (most common, over V at cadences), 7–6 (often in chains over first inversions), 9–8 (over a root-position chord).
- In a 2–3 the BASS is held: an upper part makes a 2nd with it, then the bass falls so the interval becomes a 3rd.
- Chains of 7–6 suspensions over a falling bass are a Baroque favourite.

Worked example

C held over a bass of D, falling to B: which suspension?

1. D up to C is a 7th.
2. D up to B is a 6th.
3. So it's a 7–6 suspension.

Watch out for

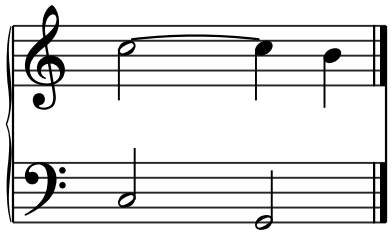

- Counting from the wrong bass note (count from the bass under the clash).

In the exam: Know the four types and their figures.

Show him these cards

1

4–3 (the commonest, over V at a cadence).

2

7–6, often in a chain over first inversions.

3

9–8, over a root-position chord.

4

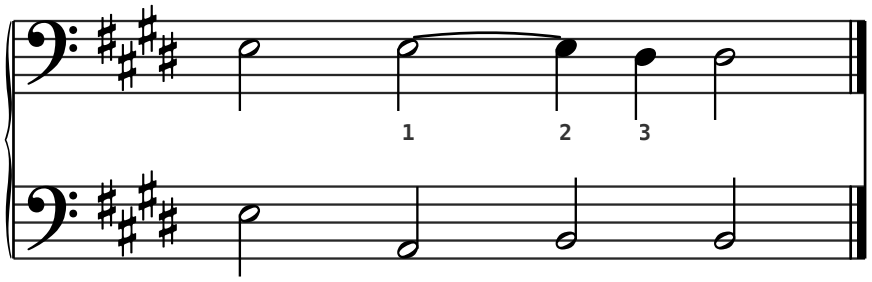

2–3: the bass is held while the upper part moves; then the bass falls.

3 · DO TOGETHER (10 MIN)

- Write one of each type in C major from the lesson pack chords.

Four questions to work through together

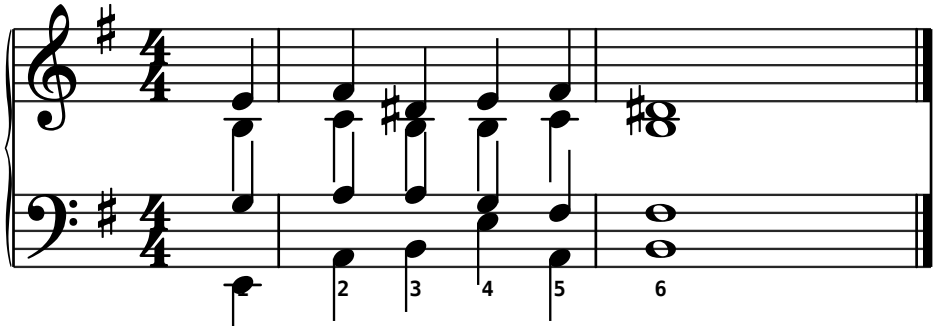

1. Note 2 is a suspension over the bass. What kind? (E major)

A. 7–6 B. 2–3 C. 9–8 D. 4–3

Answer: 4–3. Note 2 (E) is held over from note 1 and makes a 4th above the bass B; it falls to D♯, a 3rd. So it's a 4–3 suspension.

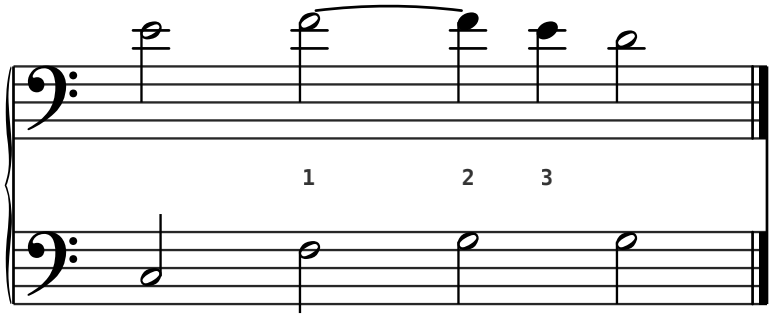

2. Where could you add a suspension? (E minor)

A. tenor, into chord 2 B. alto, into chord 2 C. soprano, into chord 4 D. alto, into chord 6

Answer: alto, into chord 6. In the alto, hold C from chord 5 into chord 6, then fall to B: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

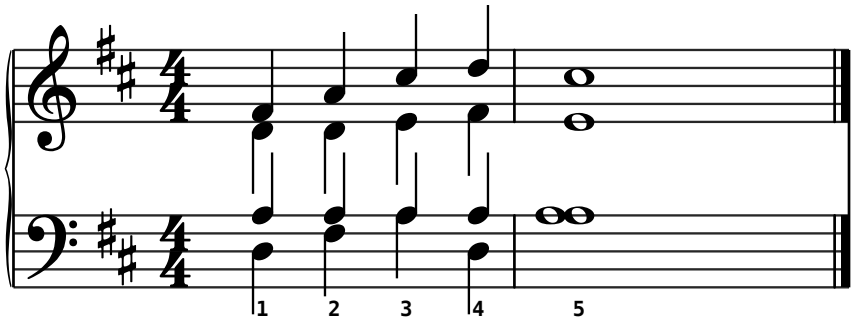

3. Note 2 is a suspension over the bass. What kind? (C major)

A. 4–3 B. 2–3 C. 9–8 D. 7–6

Answer: 7–6. Note 2 (F) is held over from note 1 and makes a 7th above the bass G; it falls to E, a 6th. So it's a 7–6 suspension.

4. Where could you add a suspension? (D major)

A. soprano, into chord 2 B. soprano, into chord 3 C. soprano, into chord 5 D. alto, into chord 3

Answer: soprano, into chord 5. In the soprano, hold D from chord 4 into chord 5, then fall to C♯: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

4 · ON HIS OWN (12 MIN)

- Suspensions practice.

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Which one? You play a suspension; he names it.

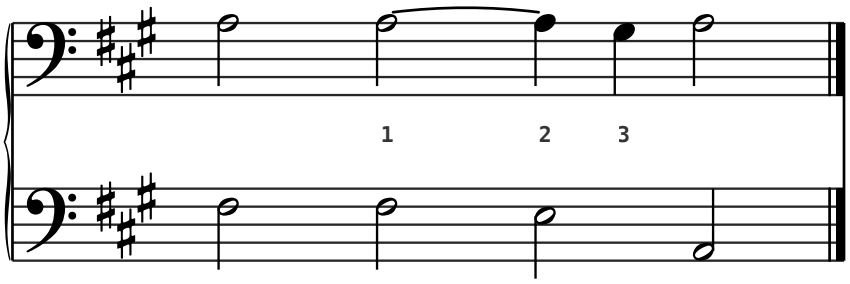

MOVE ON WHEN

He names any suspension by counting from the bass.

Philip's worksheet · Day 65

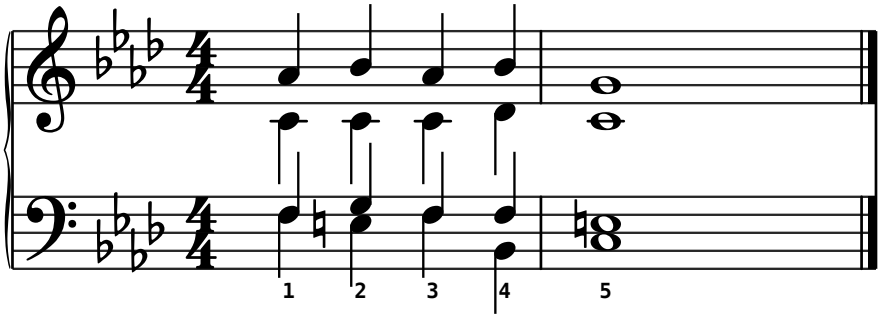

Name _____ Date _____ Score ____ / 8

1. Note 2 is a suspension over the bass. What kind? (A major)

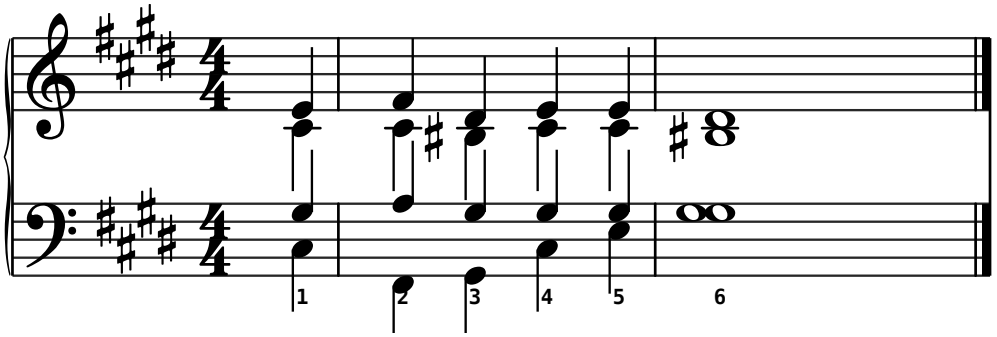

A. 4–3 B. 9–8 C. 7–6 D. 2–3

2. Where could you add a suspension? (F minor)

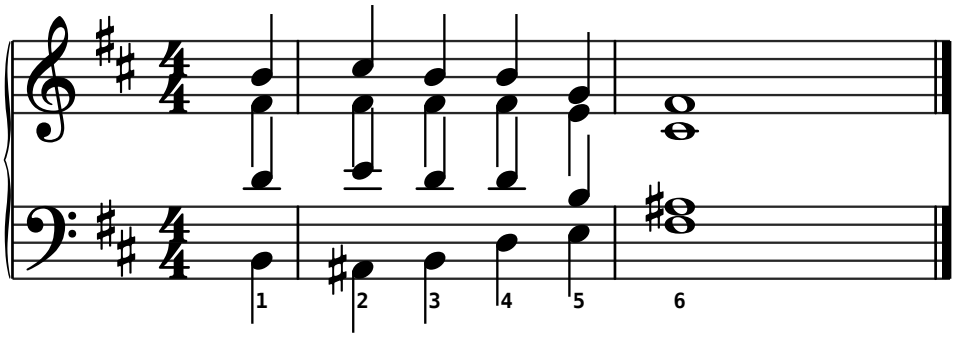

A. soprano, into chord 3 B. alto, into chord 2 C. soprano, into chord 2 D. tenor, into chord 2

3. Where could you add a suspension? (C♯ minor)

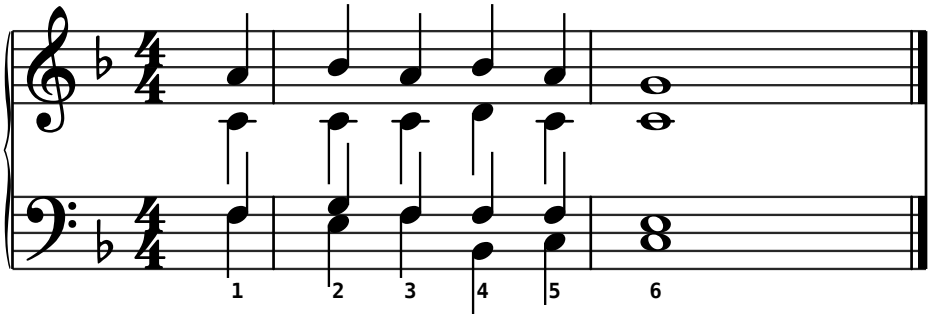

A. soprano, into chord 6 B. soprano, into chord 2 C. alto, into chord 3 D. tenor, into chord 4

4. Where could you add a suspension? (B minor)

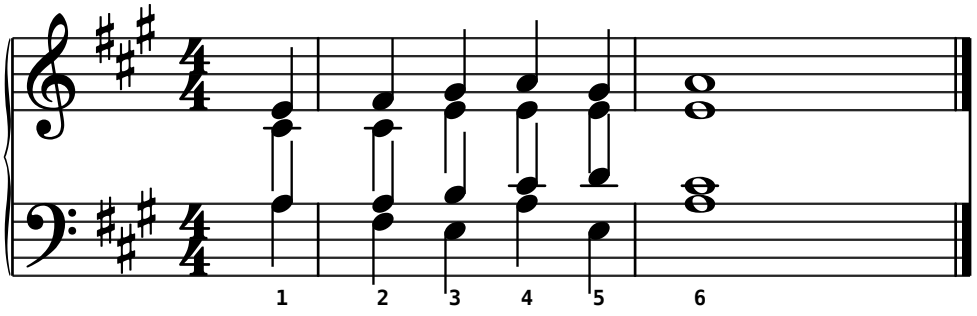

A. soprano, into chord 2 B. alto, into chord 4 C. soprano, into chord 3 D. alto, into chord 6

5. Where could you add a suspension? (F major)

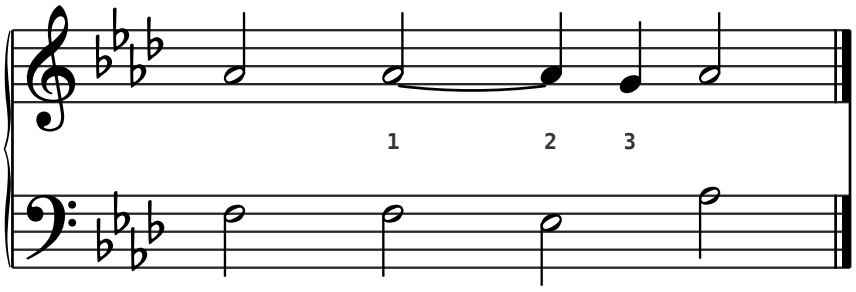

A. tenor, into chord 5 B. alto, into chord 2 C. alto, into chord 4 D. tenor, into chord 3

6. Where could you add a suspension? (A major)

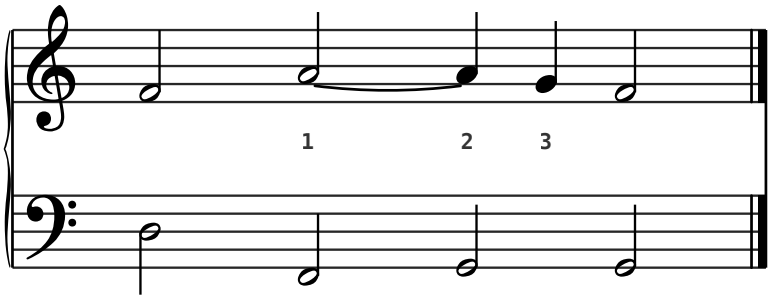

A. soprano, into chord 5 B. soprano, into chord 3 C. alto, into chord 2 D. soprano, into chord 4

7. Note 2 is a suspension over the bass. What kind? (A♭ major)

A. 7–6 B. 9–8 C. 2–3 D. 4–3

8. Note 2 is a suspension over the bass. What kind? (C major)

A. 2–3

B. 7–6

C. 9–8

D. 4–3

ANSWERS (FOR MUM)

1. **A: 4–3**. Note 2 (A) is held over from note 1 and makes a 4th above the bass E; it falls to G♯, a 3rd. So it's a 4–3 suspension.
2. **A: soprano, into chord 3**. In the soprano, hold B♭ from chord 2 into chord 3, then fall to A♭: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
3. **C: alto, into chord 3**. In the alto, hold C♯ from chord 2 into chord 3, then fall to B♯: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
4. **C: soprano, into chord 3**. In the soprano, hold C♯ from chord 2 into chord 3, then fall to B: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
5. **D: tenor, into chord 3**. In the tenor, hold G from chord 2 into chord 3, then fall to F: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
6. **A: soprano, into chord 5**. In the soprano, hold A from chord 4 into chord 5, then fall to G♯: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
7. **D: 4–3**. Note 2 (A♭) is held over from note 1 and makes a 4th above the bass E♭; it falls to G, a 3rd. So it's a 4–3 suspension.
8. **C: 9–8**. Note 2 (A) is held over from note 1 and makes a 9th above the bass G; it falls to G, a octave. So it's a 9–8 suspension.

Day 66: Where a suspension fits

G7 Decoration · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *“Finding suspensions is a treasure hunt for falling steps.”*

- Look for a part that moves DOWN BY STEP between two chords. Hold its first note over the chord change: that's the suspension.
- Check: the held note clashes (a 4th, 7th or 9th above the new bass), it falls to a note of the new chord, and that note isn't already in another part.
- Cadences are the best places: 4–3 over V in the alto or soprano.

Worked example

In I–IV–V–I in C, the alto goes C–C–B–C. Where's a 4–3?

1. Alto C in IV, B in V: a falling step into V.
2. Hold C over the V bass G: a 4th.
3. Resolve to B (the 3rd): 4–3 at the cadence.

Watch out for

- Suspending into a chord where the resolution note is already in another part.

In the exam: Two or three well-placed suspensions earn most of question 2's marks.

Show him these cards

1

Look for a part that moves DOWN BY STEP between two chords: hold its first note over the change.

2

Check: is the held note a 4th, 7th or 9th above the new bass? Does it fall to a chord note? Is that note free (not doubled)?

3

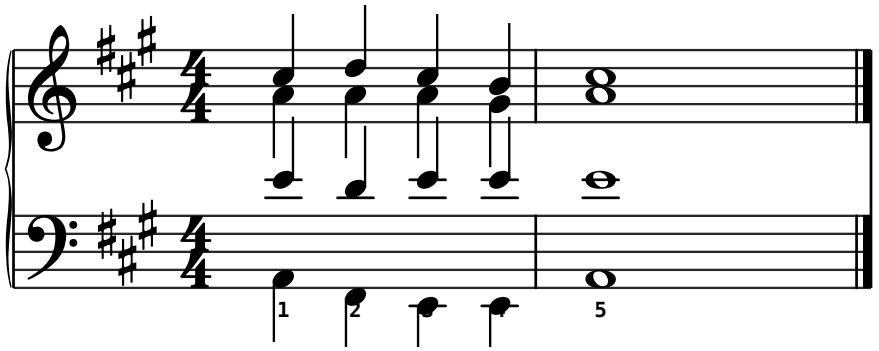

Best place: the cadence, 4–3 over V.

3 · DO TOGETHER (10 MIN)

- Mark every possible suspension in a plain four-part passage.

Four questions to work through together

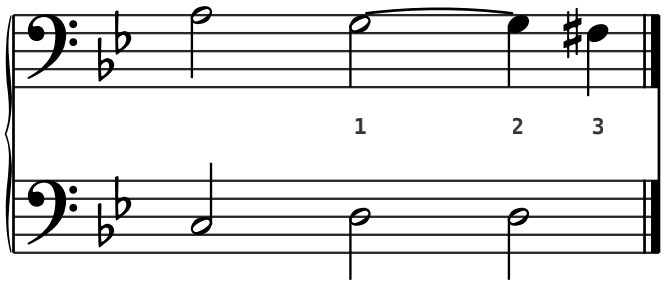

1. Where could you add a suspension? (A major)

A. soprano, into chord 2 B. soprano, into chord 3 C. tenor, into chord 4 D. alto, into chord 5

Answer: soprano, into chord 3. In the soprano, hold D from chord 2 into chord 3, then fall to C♯: a 7–6 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

2. In this suspension, which note is the suspension (the clash)? (G minor)

A. Note 2 B. Note 3 C. Note 1

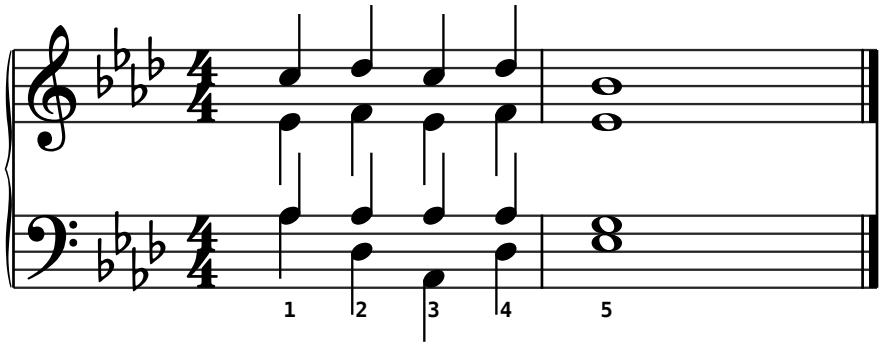

Answer: Note 2. Note 1 is the preparation (a concord, tied over). Note 2 is the suspension: the same note, now clashing with the new bass on the strong beat. Note 3 is the resolution, a step down.

3. An anticipation is…

A. a note of the next chord, sounded early B. a leap to a dissonance C. a held note from the chord before D. a note a step above, then back

Answer: a note of the next chord, sounded early. Anticipations are common at cadences: the tonic arrives a moment early.

4. Where could you add a suspension? (A♭ major)

A. alto, into chord 4 B. soprano, into chord 2 C. tenor, into chord 4 D. soprano, into chord 3

Answer: soprano, into chord 3. In the soprano, hold D♭ from chord 2 into chord 3, then fall to C: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

4 · ON HIS OWN (12 MIN)

- Suspensions practice.

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Suspension hunt: he finds them in a chorale you play.

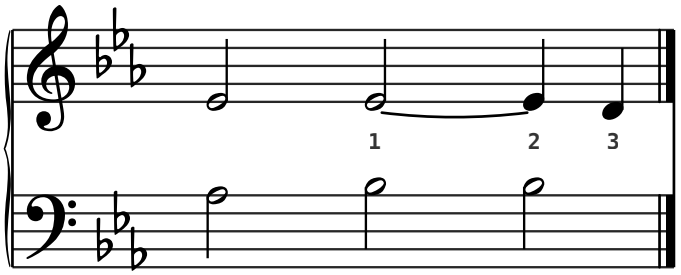

MOVE ON WHEN

He finds two valid suspensions in a plain passage.

Philip's worksheet · Day 66

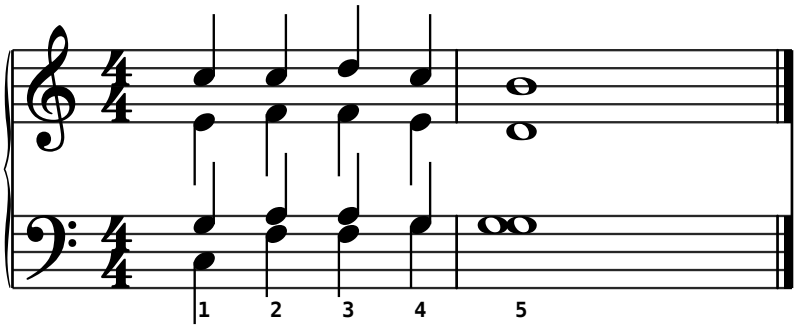

Name _____ Date _____ Score ____ / 8

1. Note 2 is a suspension over the bass. What kind? (E♭ major)

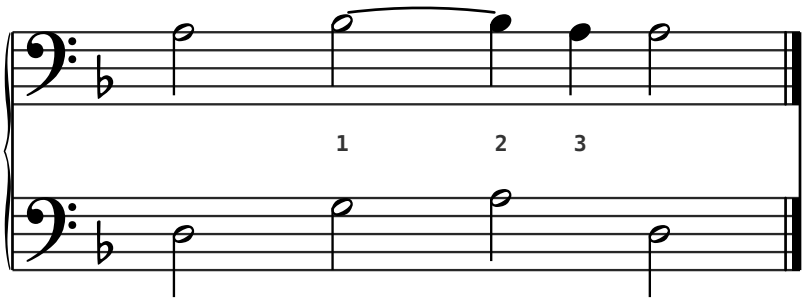

A. 4–3 B. 2–3 C. 9–8 D. 7–6

2. Where could you add a suspension? (C major)

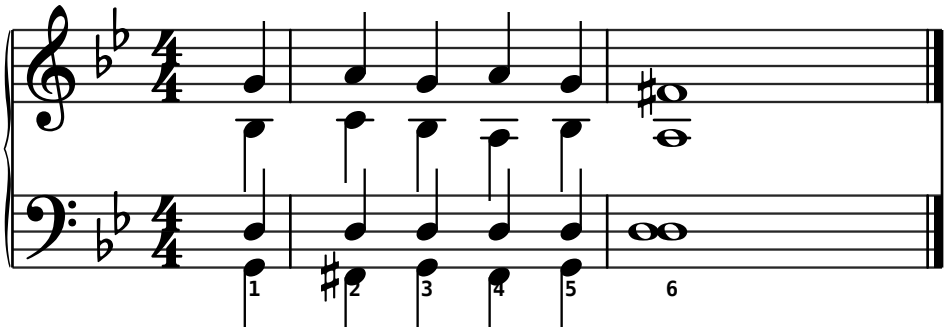

A. alto, into chord 5 B. soprano, into chord 4 C. soprano, into chord 2 D. alto, into chord 4

3. In this suspension, which note is the suspension (the clash)? (D minor)

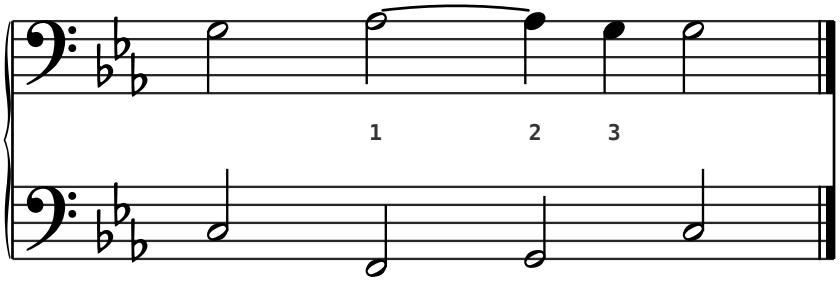

A. Note 1 B. Note 3 C. Note 2

4. Where could you add a suspension? (G minor)

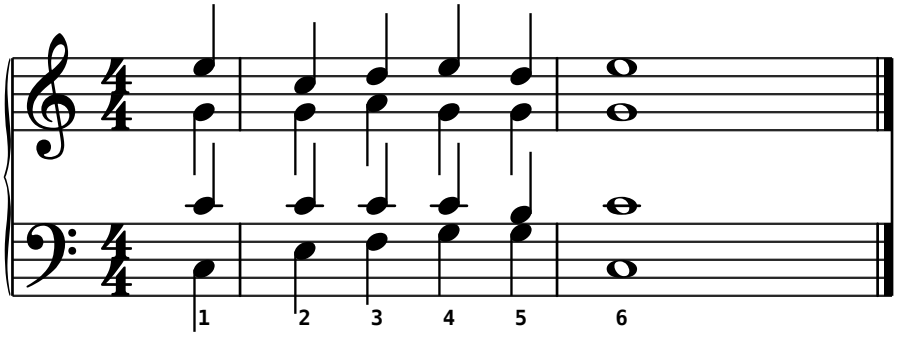

A. soprano, into chord 4 B. soprano, into chord 5 C. tenor, into chord 3 D. alto, into chord 6

5. Note 2 is a suspension over the bass. What kind? (C minor)

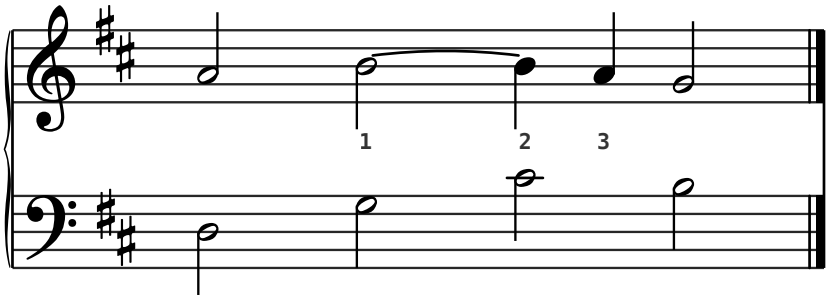

A. 2–3 B. 7–6 C. 4–3 D. 9–8

6. Where could you add a suspension? (C major)

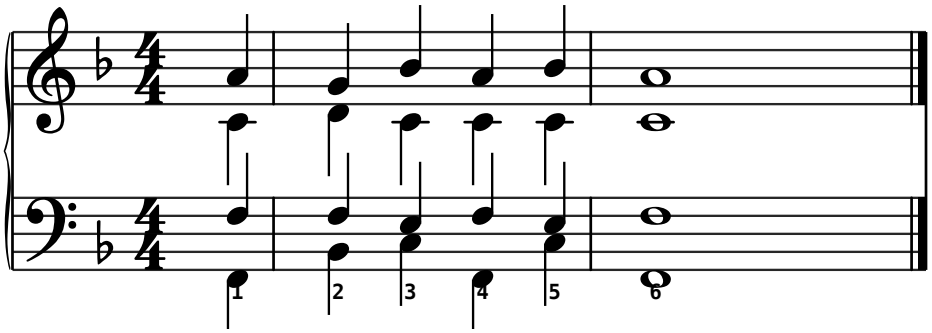

A. tenor, into chord 5 B. tenor, into chord 3 C. alto, into chord 5 D. tenor, into chord 6

7. Note 2 is a suspension over the bass. What kind? (D major)

A. 9–8 B. 2–3 C. 4–3 D. 7–6

8. Where could you add a suspension? (F major)

A. soprano, into chord 5 B. tenor, into chord 6 C. tenor, into chord 5 D. tenor, into chord 4

ANSWERS (FOR MUM)

1. **A: 4–3**. Note 2 (E♭) is held over from note 1 and makes a 4th above the bass B♭; it falls to D, a 3rd. So it's a 4–3 suspension.
2. **D: alto, into chord 4**. In the alto, hold F from chord 3 into chord 4, then fall to E: a 7–6 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
3. **C: Note 2**. Note 1 is the preparation (a concord, tied over). Note 2 is the suspension: the same note, now clashing with the new bass on the strong beat. Note 3 is the resolution, a step down.
4. **B: soprano, into chord 5**. In the soprano, hold A from chord 4 into chord 5, then fall to G: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
5. **D: 9–8**. Note 2 (A♭) is held over from note 1 and makes a 9th above the bass G; it falls to G, a octave. So it's a 9–8 suspension.
6. **A: tenor, into chord 5**. In the tenor, hold C from chord 4 into chord 5, then fall to B: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
7. **D: 7–6**. Note 2 (B) is held over from note 1 and makes a 7th above the bass C♯; it falls to A, a 6th. So it's a 7–6 suspension.
8. **C: tenor, into chord 5**. In the tenor, hold F from chord 4 into chord 5, then fall to E: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

Day 67: Melodic decoration

G7 Decoration · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *“Decoration makes a plain line sing: but too much makes it fussy.”*

- Besides suspensions, decorate with: passing notes (step between chord notes), auxiliary notes (step away and back), anticipations (the next chord's note, early), échappées (step out, leap back the other way) and appoggiaturas (a clash on the beat, resolving by step).
- Use quavers so the decoration fits inside the beat. Don't create consecutive 5ths or octaves with the decorated part.
- Keep it stylish: one or two decorations per bar is plenty.

Worked example

Decorate E–C in the soprano over I–IV in C.

1. E to C is a 3rd.
2. Fill it with a passing note: E–D–C (quavers E–D, then C).
3. Check D doesn't make consecutives with another part.

Watch out for

- Decorating every beat.
- Creating consecutive 5ths or octaves with a passing note.

In the exam: Question 2: decoration plus suspensions. Questions 4–5: name the decoration at a marked note.

Show him these cards

1

Passing note: steps between two chord notes. Auxiliary: steps away and back.

2

Anticipation: the next chord's note, early. Échappée: step out, leap back the other way.

3

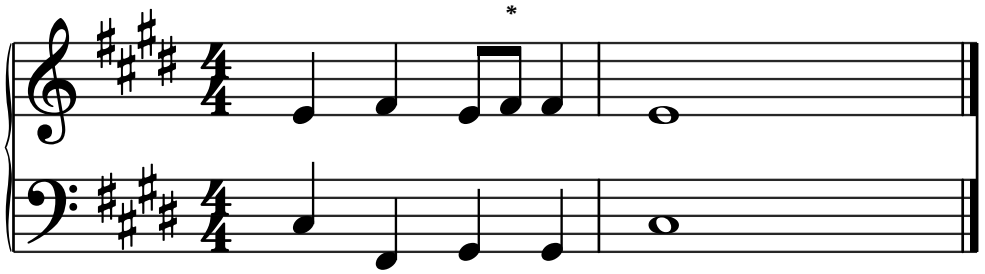

Appoggiatura: a clash on the beat, resolving by step (not prepared).

3 · DO TOGETHER (10 MIN)

- Decorate a plain melody with passing notes and one échappée.

Four questions to work through together

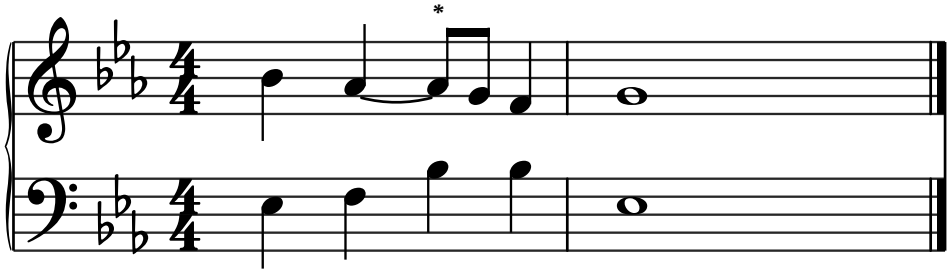

1. The note marked * is which kind of note? (C♯ minor)

A. changing notes B. anticipation C. suspension D. passing note

Answer: anticipation. An anticipation sounds a note of the NEXT chord early, before the chord changes.

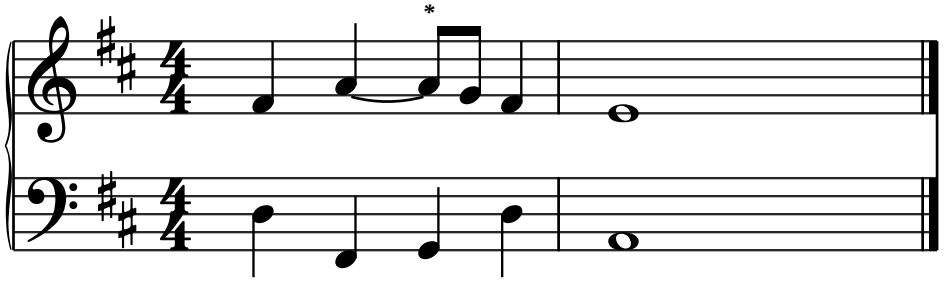

2. The note marked * is which kind of note? (E♭ major)

A. auxiliary note B. suspension C. changing notes D. appoggiatura

Answer: suspension. A suspension holds a note over from the chord before (prepared), clashes on the beat, then resolves down by step.

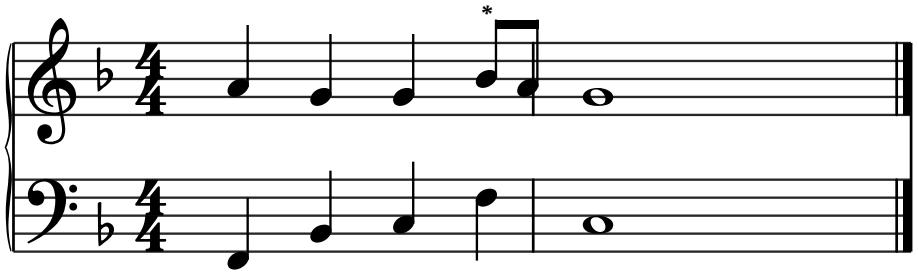

3. The note marked * is which kind of note? (D major)

A. appoggiatura B. suspension C. anticipation D. passing note

Answer: suspension. A suspension holds a note over from the chord before (prepared), clashes on the beat, then resolves down by step.

4. The note marked * is which kind of note? (F major)

A. anticipation B. suspension C. changing notes D. appoggiatura

Answer: appoggiatura. An appoggiatura leans on the beat: it's a clash on the strong part of the beat that then falls (or rises) by step to the chord note.

4 · ON HIS OWN (12 MIN)

- Notes outside the chord practice.

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Decorate live: he improvises passing notes over your chords.

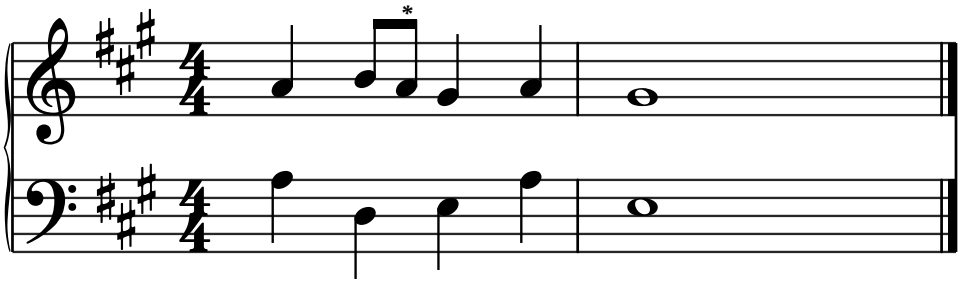

MOVE ON WHEN

He names five kinds of decoration.

Philip's worksheet · Day 67

Name _____ Date _____ Score ____ / 8

1. The note marked * is which kind of note? (A major)

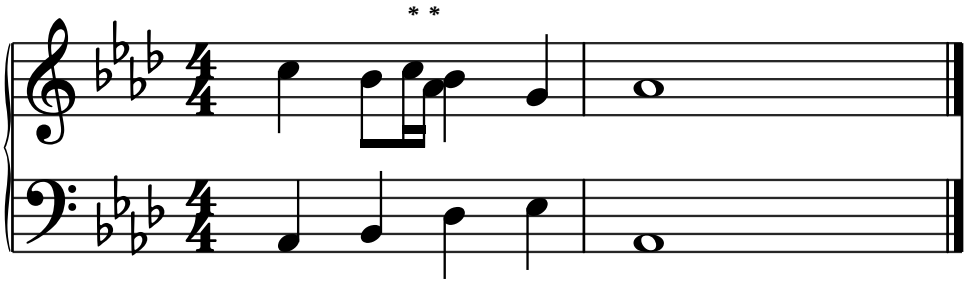

A. suspension B. passing note C. changing notes D. anticipation

2. The note marked * is which kind of note? (F major)

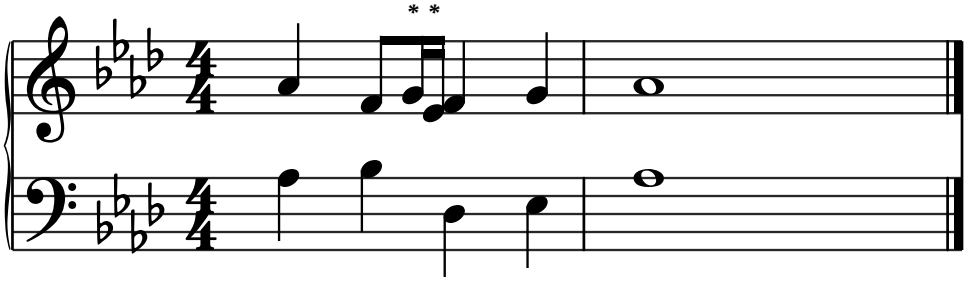

A. anticipation B. suspension C. auxiliary note D. passing note

3. The two notes marked * are which kind of note? (A♭ major)

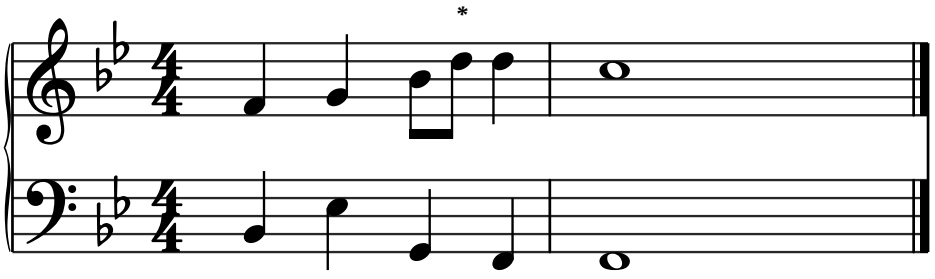

A. auxiliary note B. suspension C. appoggiatura D. changing notes

4. The two notes marked * are which kind of note? (A♭ major)

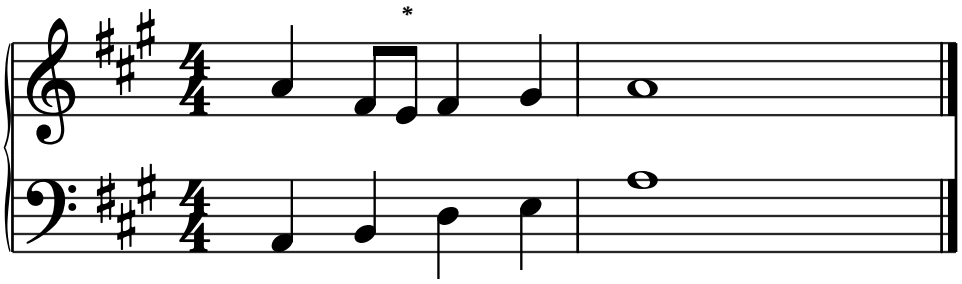

A. anticipation B. auxiliary note C. passing note D. changing notes

5. The note marked * is which kind of note? (B♭ major)

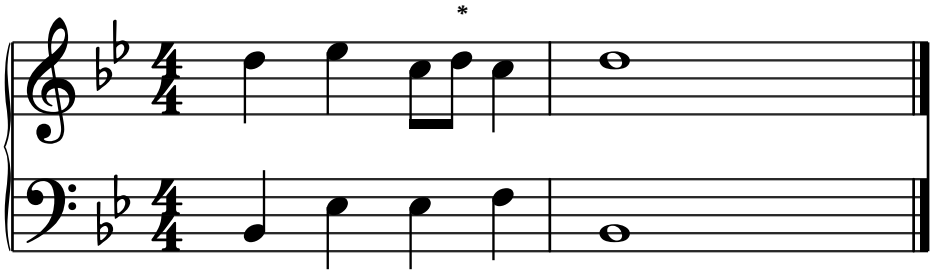

A. suspension B. anticipation C. passing note D. changing notes

6. The note marked * is which kind of note? (A major)

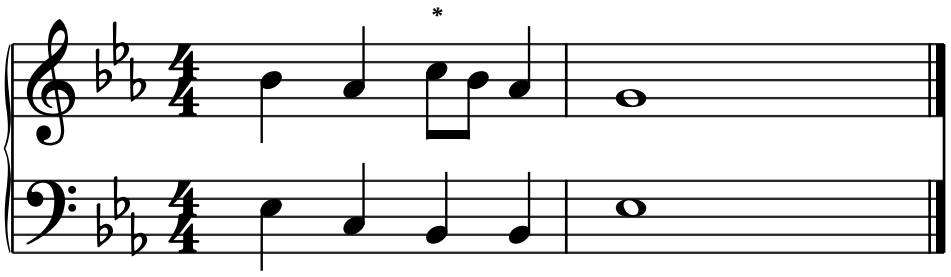

A. anticipation B. appoggiatura C. auxiliary note D. passing note

7. The note marked * is which kind of note? (B♭ major)

A. anticipation B. suspension C. auxiliary note D. appoggiatura

8. The note marked * is which kind of note? (E♭ major)

A. changing notes B. auxiliary note C. suspension D. appoggiatura

ANSWERS (FOR MUM)

1. **B: passing note**. A passing note fills the gap between two chord notes a 3rd apart, by step.
2. **C: auxiliary note**. An auxiliary note steps away from a chord note and comes straight back to it.
3. **D: changing notes**. Changing notes are a pair: one above and one below the chord note, before returning to it.
4. **D: changing notes**. Changing notes are a pair: one above and one below the chord note, before returning to it.
5. **B: anticipation**. An anticipation sounds a note of the NEXT chord early, before the chord changes.
6. **C: auxiliary note**. An auxiliary note steps away from a chord note and comes straight back to it.
7. **C: auxiliary note**. An auxiliary note steps away from a chord note and comes straight back to it.
8. **D: appoggiatura**. An appoggiatura leans on the beat: it's a clash on the strong part of the beat that then falls (or rises) by step to the chord note.

Day 68: Question 2: rewriting a passage

G7 Decoration · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *"Think of question 2 as dressing up a plain outfit: same shape, more style."*

- The exam gives a plain passage. Rewrite it adding suspensions and decoration while keeping the harmony.
- Plan: 1. Mark where suspensions can go (falling steps). 2. Choose two or three, especially at cadences. 3. Add passing notes where parts move by a 3rd. 4. Check every pair of parts for consecutives.
- Copy the rest of the passage exactly; neat, clear ties.

Worked example

How many suspensions should you add?

1. Two or three good ones are better than many weak ones.
2. Put at least one at the final cadence.
3. Then add a little decoration in other parts.

Watch out for

- Changing the harmony.
- Ties that don't show which note is held.

In the exam: 15 marks: neat, correct suspensions score highly.

Show him these cards

1

Question 2: rewrite the plain passage with suspensions and decoration, keeping the harmony.

2

1. Mark the falling steps. 2. Choose 2–3 suspensions (cadences first). 3. Add passing notes in 3rds. 4. Check for consecutives.

3

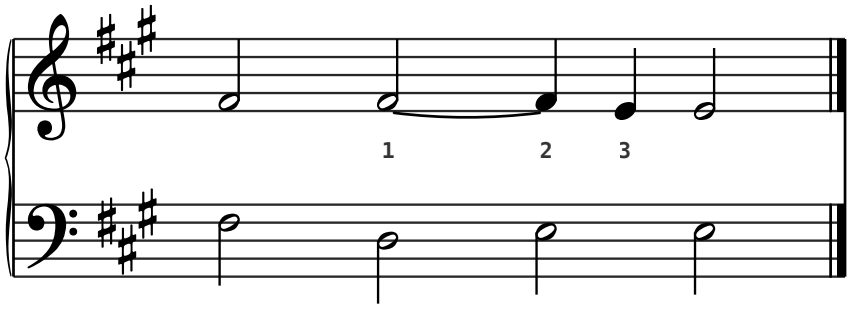

Copy everything else exactly; use clear ties.

3 · DO TOGETHER (10 MIN)

- Do the lesson pack's question 2 together, then compare with the ideas list.

Four questions to work through together

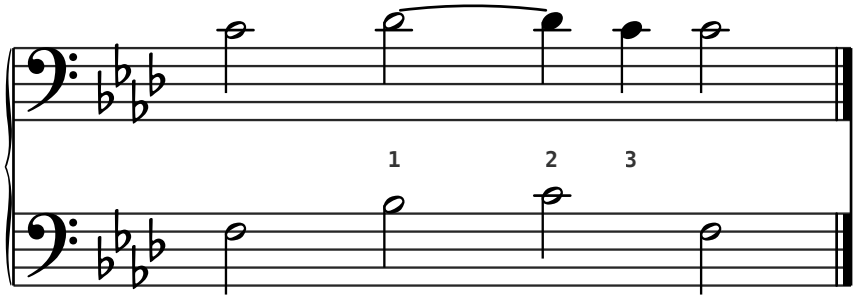

1. Note 2 is a suspension over the bass. What kind? (A major)

A. 7–6 B. 9–8 C. 4–3 D. 2–3

Answer: 9–8. Note 2 (F♯) is held over from note 1 and makes a 9th above the bass E; it falls to E, a octave. So it's a 9–8 suspension.

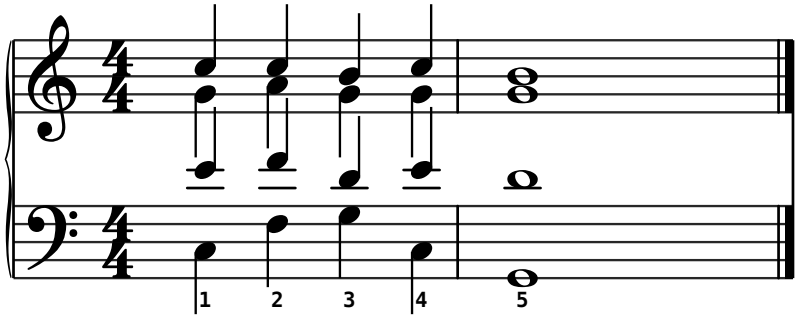

2. In this suspension, which note is the preparation? (F minor)

A. Note 1 B. Note 3 C. Note 2

Answer: Note 1. Note 1 is the preparation (a concord, tied over). Note 2 is the suspension: the same note, now clashing with the new bass on the strong beat. Note 3 is the resolution, a step down.

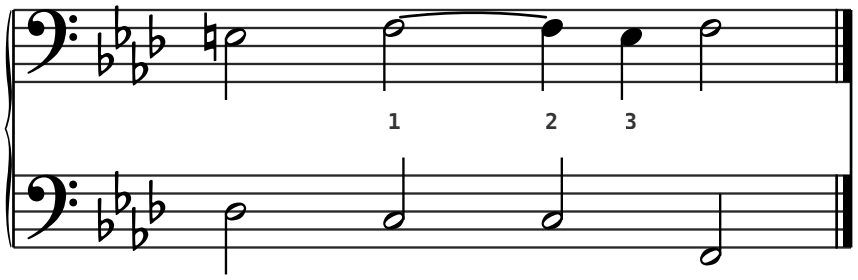

3. Where could you add a suspension? (C major)

A. soprano, into chord 5 B. tenor, into chord 4 C. tenor, into chord 5 D. soprano, into chord 4

Answer: soprano, into chord 5. In the soprano, hold C from chord 4 into chord 5, then fall to B: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

4. Note 2 is a suspension over the bass. What kind? (F minor)

A. 4–3 B. 2–3 C. 7–6 D. 9–8

Answer: 4–3. Note 2 (F) is held over from note 1 and makes a 4th above the bass C; it falls to E, a 3rd. So it's a 4–3 suspension.

4 · ON HIS OWN (12 MIN)

- Suspensions practice.

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Before and after: play the plain passage, then his version.

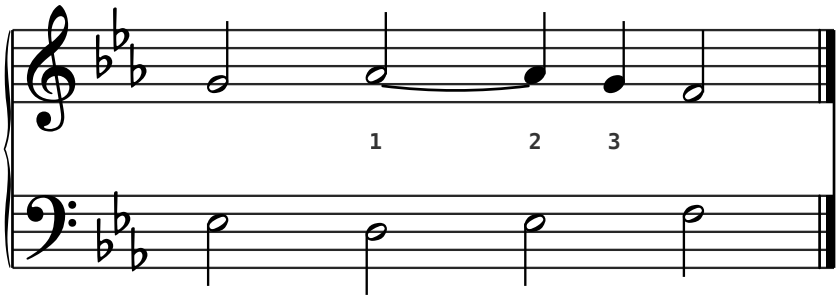

MOVE ON WHEN

He adds two good suspensions and some decoration.

Philip's worksheet · Day 68

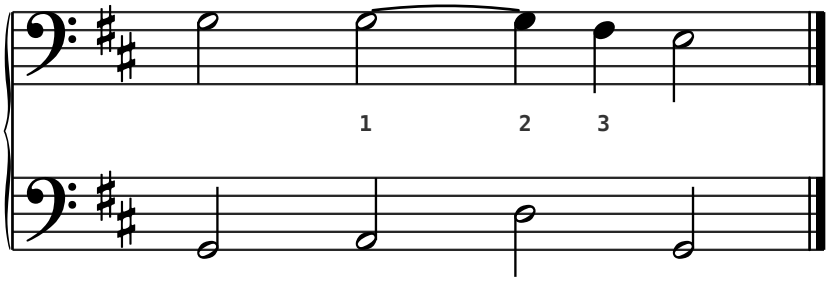

Name _____ Date _____ Score ____ / 8

1. In this suspension, which note is the resolution? (E♭ major)

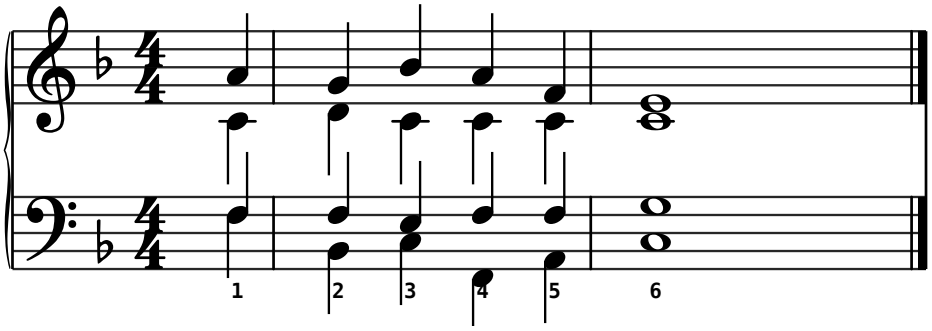

A. Note 2 B. Note 1 C. Note 3

2. In this suspension, which note is the resolution? (D major)

A. Note 2 B. Note 3 C. Note 1

3. Where could you add a suspension? (F major)

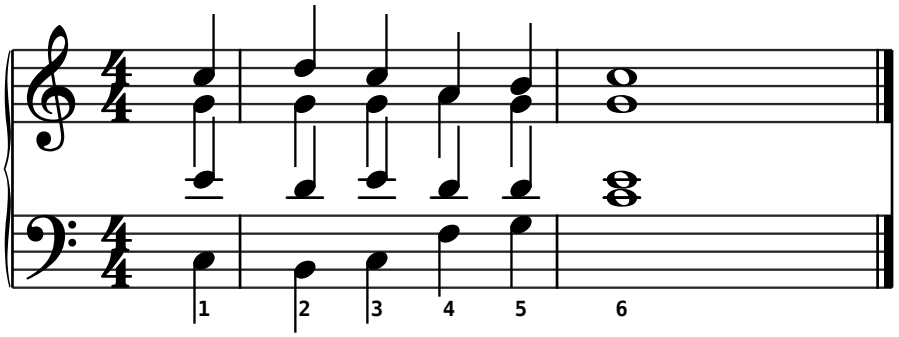

A. alto, into chord 5 B. alto, into chord 4 C. alto, into chord 3 D. tenor, into chord 5

4. The suspension itself falls on…

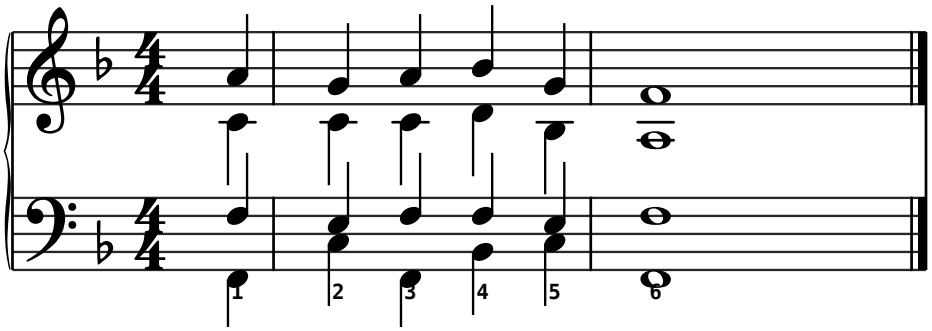

A. the last beat only B. a weak beat C. any beat, it doesn't matter D. a strong beat

5. Where could you add a suspension? (C major)

A. soprano, into chord 4 B. soprano, into chord 3 C. alto, into chord 4 D. soprano, into chord 5

6. Where could you add a suspension? (F major)

A. tenor, into chord 5 B. soprano, into chord 4 C. tenor, into chord 4 D. alto, into chord 3

7. In a 4–3 suspension, which note should NOT be in another part at the same time?

A. the note of resolution (the 3rd) B. the 5th C. the root D. the bass

8. An échappée (escape note)…

A. always falls on a strong beat B. repeats the previous note C. is a held note D. steps away from a chord note, then leaps back the other way

ANSWERS (FOR MUM)

1. **C: Note 3**. Note 1 is the preparation (a concord, tied over). Note 2 is the suspension: the same note, now clashing with the new bass on the strong beat. Note 3 is the resolution, a step down.
2. **B: Note 3**. Note 1 is the preparation (a concord, tied over). Note 2 is the suspension: the same note, now clashing with the new bass on the strong beat. Note 3 is the resolution, a step down.
3. **C: alto, into chord 3**. In the alto, hold D from chord 2 into chord 3, then fall to C: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
4. **D: a strong beat**. The clash happens on the strong beat; the resolution comes on a weaker part of the beat or bar.
5. **B: soprano, into chord 3**. In the soprano, hold D from chord 2 into chord 3, then fall to C: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
6. **A: tenor, into chord 5**. In the tenor, hold F from chord 4 into chord 5, then fall to E: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
7. **A: the note of resolution (the 3rd)**. Doubling the note of resolution spoils the effect. (9–8 is the exception: the bass already has that note.)
8. **D: steps away from a chord note, then leaps back the other way**. Échappée: step out, leap in the opposite direction to the next chord note.

Day 69: Review: suspensions and decoration (Days 64–68)

G7 Decoration · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

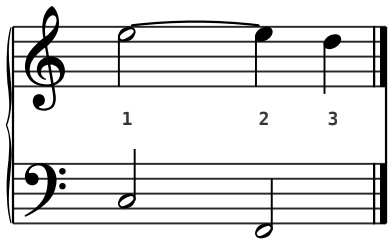

2 · TEACH (10 MIN)

- Go back over Days 64–68: the anatomy of a suspension, the four types, where they fit, and decoration.

Show him these cards

1

A suspension: preparation (concord) → suspension (held, clashing on the beat) → resolution (down a step).

2

4–3 (the commonest, over V at a cadence).

3

Look for a part that moves DOWN BY STEP between two chords: hold its first note over the change.

4

Passing note: steps between two chord notes. Auxiliary: steps away and back.

5

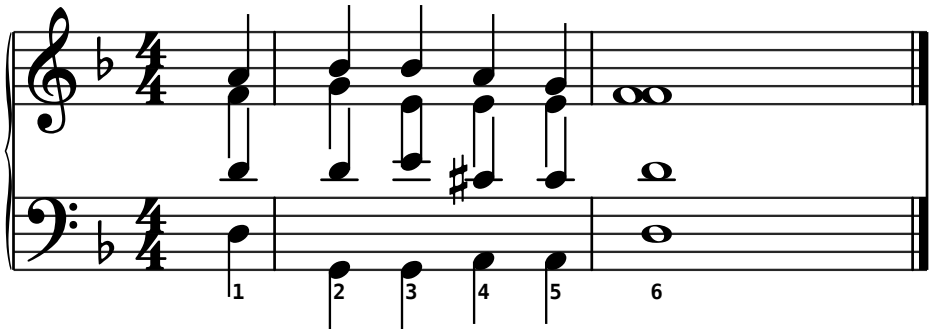

Question 2: rewrite the plain passage with suspensions and decoration, keeping the harmony.

3 · DO TOGETHER (10 MIN)

- An exam-style question 2 from the lesson pack, timed at 25 minutes.

Four questions to work through together

1. Where could you add a suspension? (D minor)

A. soprano, into chord 4 B. alto, into chord 5 C. tenor, into chord 2 D. soprano, into chord 5

Answer: soprano, into chord 4. In the soprano, hold B♭ from chord 3 into chord 4, then fall to A: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

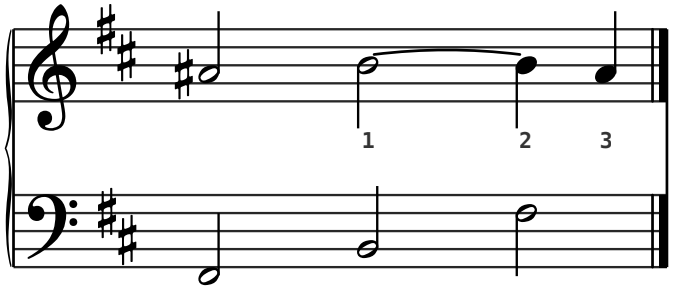

2. The note marked * is which kind of note? (A minor)

A. suspension B. anticipation C. passing note D. auxiliary note

Answer: auxiliary note. An auxiliary note steps away from a chord note and comes straight back to it.

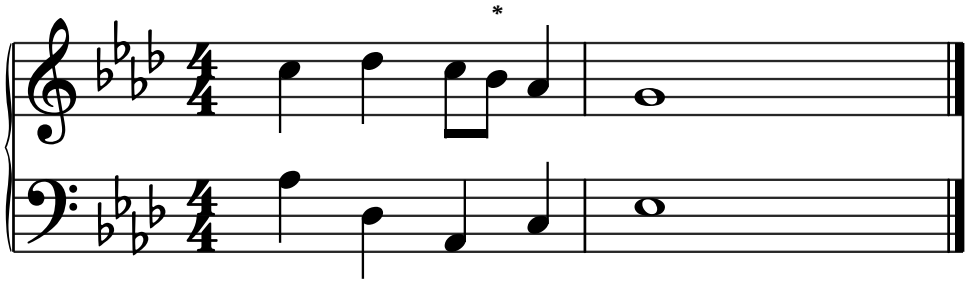

3. Note 2 is a suspension over the bass. What kind? (B minor)

A. 9–8 B. 4–3 C. 2–3 D. 7–6

Answer: 4–3. Note 2 (B) is held over from note 1 and makes a 4th above the bass F♯; it falls to A♯, a 3rd. So it's a 4–3 suspension.

4. The note marked * is which kind of note? (A♭ major)

A. passing note B. suspension C. changing notes D. appoggiatura

Answer: passing note. A passing note fills the gap between two chord notes a 3rd apart, by step.

4 · ON HIS OWN (12 MIN)

- Suspensions practice.

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

His choice of game.

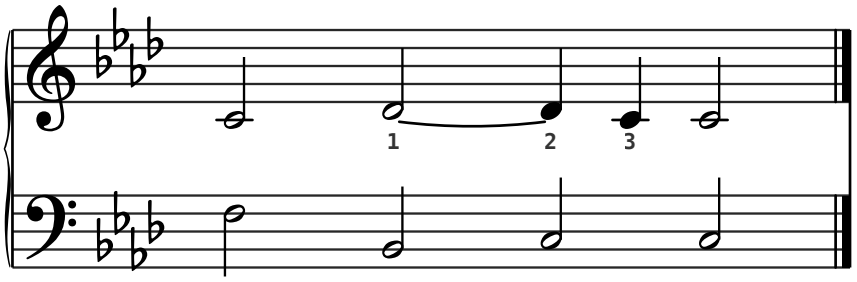

MOVE ON WHEN

He scores 8/10 or better on suspensions.

Philip's worksheet · Day 69

Name _____ Date _____ Score ___ / 8

1. Note 2 is a suspension over the bass. What kind? (F minor)

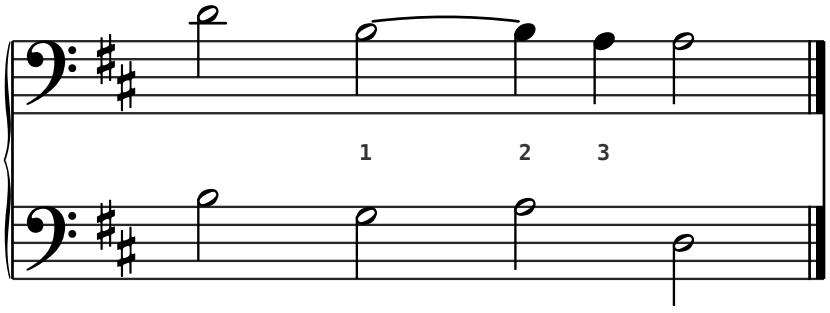

A. 9–8 B. 7–6 C. 2–3 D. 4–3

2. The note marked * is which kind of note? (G major)

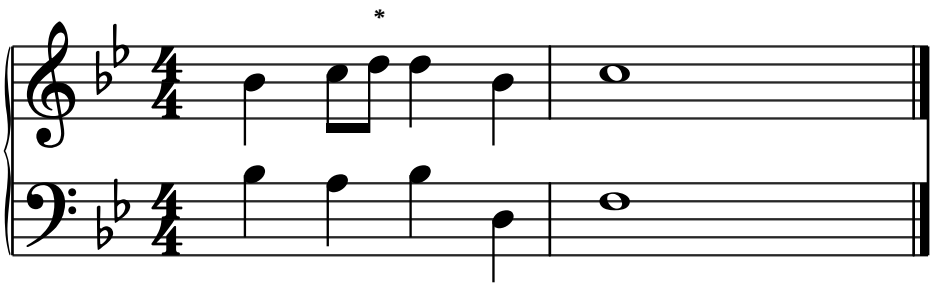

A. auxiliary note B. anticipation C. appoggiatura D. changing notes

3. Note 2 is a suspension over the bass. What kind? (D major)

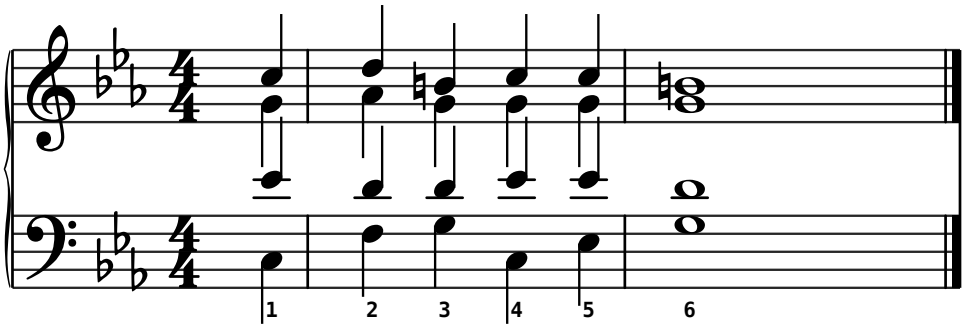

A. 2–3 B. 9–8 C. 7–6 D. 4–3

4. The note marked * is which kind of note? (B♭ major)

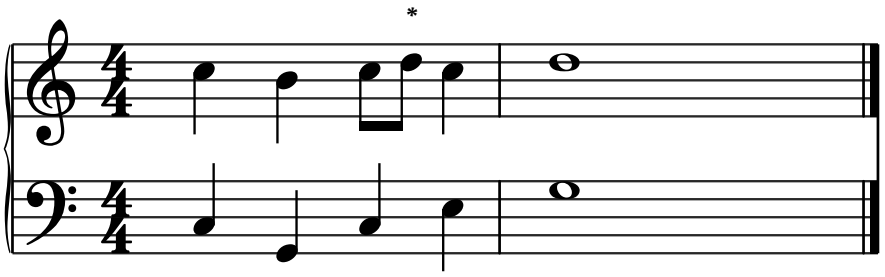

A. appoggiatura B. anticipation C. passing note D. suspension

5. Where could you add a suspension? (C minor)

A. tenor, into chord 2 B. tenor, into chord 4 C. soprano, into chord 6 D. tenor, into chord 5

6. The note marked * is which kind of note? (C major)

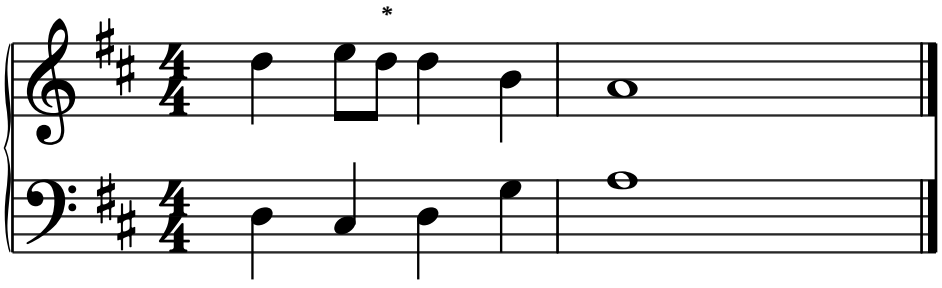

A. anticipation B. passing note C. suspension D. auxiliary note

7. An anticipation is...

A. a note a step above, then back B. a note of the next chord, sounded early C. a held note from the chord before D. a leap to a dissonance

8. The note marked * is which kind of note? (D major)

A. auxiliary note B. passing note C. appoggiatura D. anticipation

ANSWERS (FOR MUM)

1. **A: 9–8**. Note 2 (D♭) is held over from note 1 and makes a 9th above the bass C; it falls to C, a octave. So it's a 9–8 suspension.
2. **A: auxiliary note**. An auxiliary note steps away from a chord note and comes straight back to it.
3. **B: 9–8**. Note 2 (B) is held over from note 1 and makes a 9th above the bass A; it falls to A, a octave. So it's a 9–8 suspension.
4. **B: anticipation**. An anticipation sounds a note of the NEXT chord early, before the chord changes.
5. **C: soprano, into chord 6**. In the soprano, hold C from chord 5 into chord 6, then fall to B: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
6. **D: auxiliary note**. An auxiliary note steps away from a chord note and comes straight back to it.
7. **B: a note of the next chord, sounded early**. Anticipations are common at cadences: the tonic arrives a moment early.
8. **D: anticipation**. An anticipation sounds a note of the NEXT chord early, before the chord changes.

Day 70: Question 3: a melody over a chord plan

G7 Compose · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *“The chords are your map; the melody is the path you choose across it.”*

- One choice in question 3 gives a chord plan (or a bass) and asks for a melody for an instrument.
- Strong beats: use a note of the chord underneath. Weak beats: passing and auxiliary notes are fine.
- Shape: develop the opening idea, aim for a high point, end bar 4 on a half-way note (imperfect cadence) and bar 8 on the tonic.

Worked example

Bar with IV then V in G major (4/4): which notes on beats 1 and 3?

1. Beat 1 over IV (C–E–G): C, E or G.
2. Beat 3 over V (D–F♯–A): D, F♯ or A.
3. Connect them with steps or a passing note.

Watch out for

- A strong-beat note that clashes with the chord.

In the exam: 20 marks; the examiner checks harmony, shape and instrument writing.

Show him these cards

1

Question 3 (one choice): a melody over a chord plan. Strong beats: notes of the chord.

2

Weak beats: passing and auxiliary notes are fine.

3

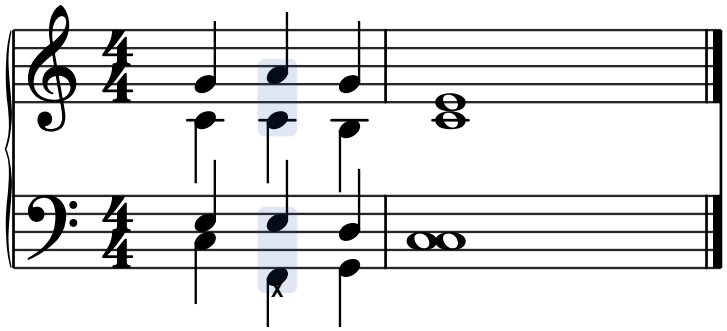

End bar 4 on a half-way note, bar 8 on the tonic.

3 · DO TOGETHER (10 MIN)

- Write bars 2–4 of a Compose task together, saying the chord for each beat.

Four questions to work through together

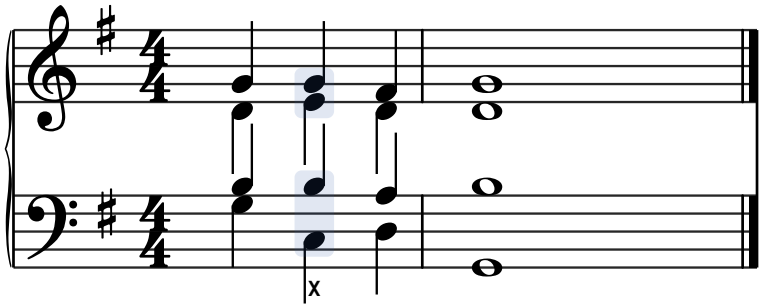

1. This passage is in C major. What kind of chord is X?

A. a secondary 7th B. a half-diminished 7th (VII7 in a major key) C. a diminished 7th D. a Neapolitan 6th

Answer: a secondary 7th. X is F–A–C–E (IV7): a secondary 7th. A 7th chord on a degree other than V. Its 7th is normally prepared and falls by step.

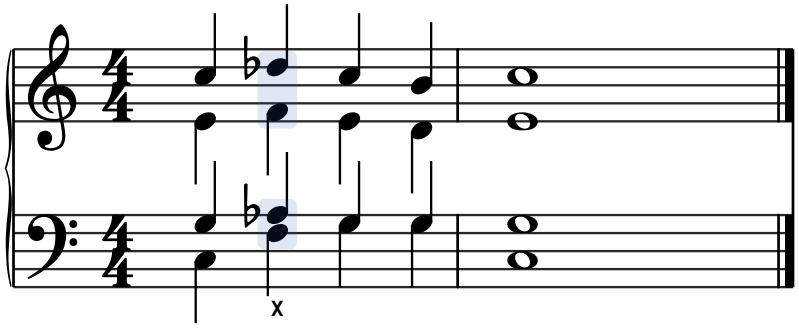

2. This passage is in G major. Which figures go under the chord marked X?

A. 6/5 B. 7 C. 6 D. 4/3

Answer: 7. X is IV7 (C–E–G–B). Counting up from the bass C: 7.

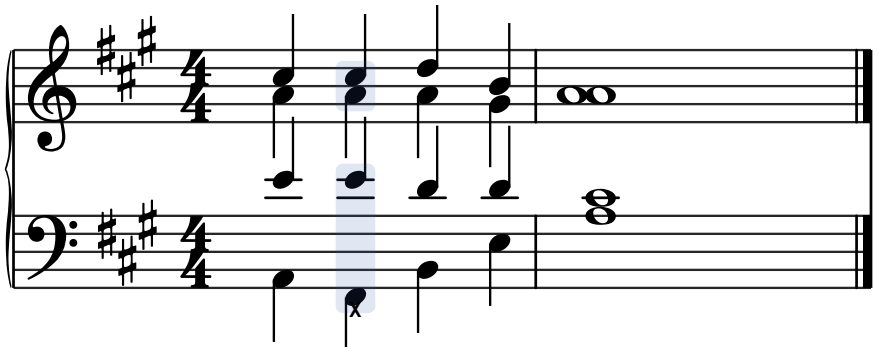

3. This passage is in C major. Name the chord marked X.

A. VII7b B. VIIb C. I7b D. N6

Answer: N6. X is D♭–F–A♭ with F in the bass: N6, a Neapolitan 6th (the major chord on the flattened supertonic, in first inversion).

4. This passage is in A major. What kind of chord is X?

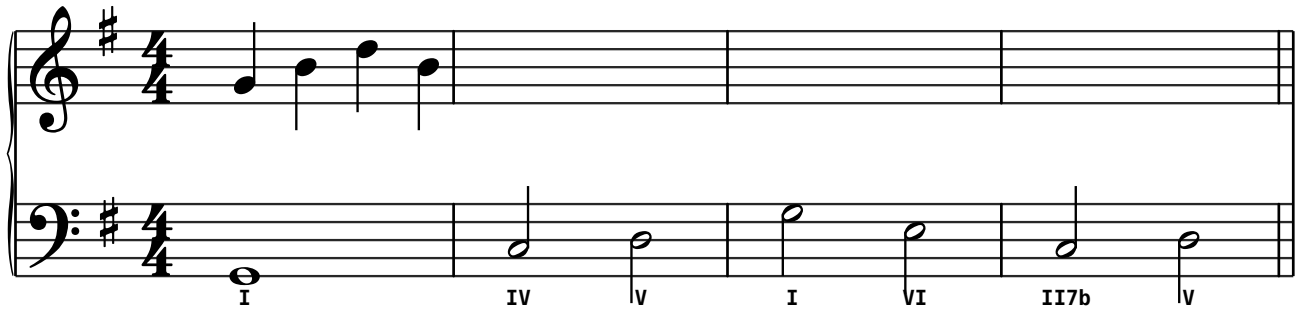

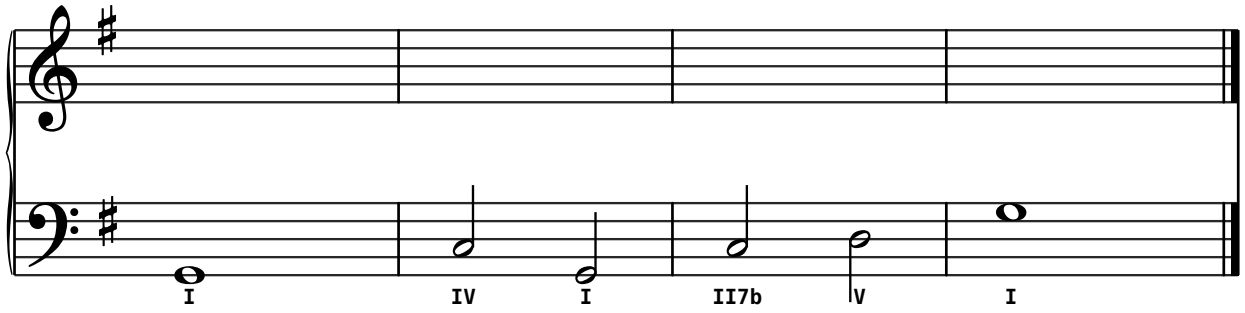

A. a secondary 7th B. a dominant 7th C. a diminished 7th D. a Neapolitan 6th

Answer: a secondary 7th. X is F♯–A–C♯–E (VI7): a secondary 7th. A 7th chord on a degree other than V. Its 7th is normally prepared and falls by step.

TODAY'S COMPOSITION TASK

Write a melody for violin over this chord plan. The first bar is given; continue to the end of bar 8.

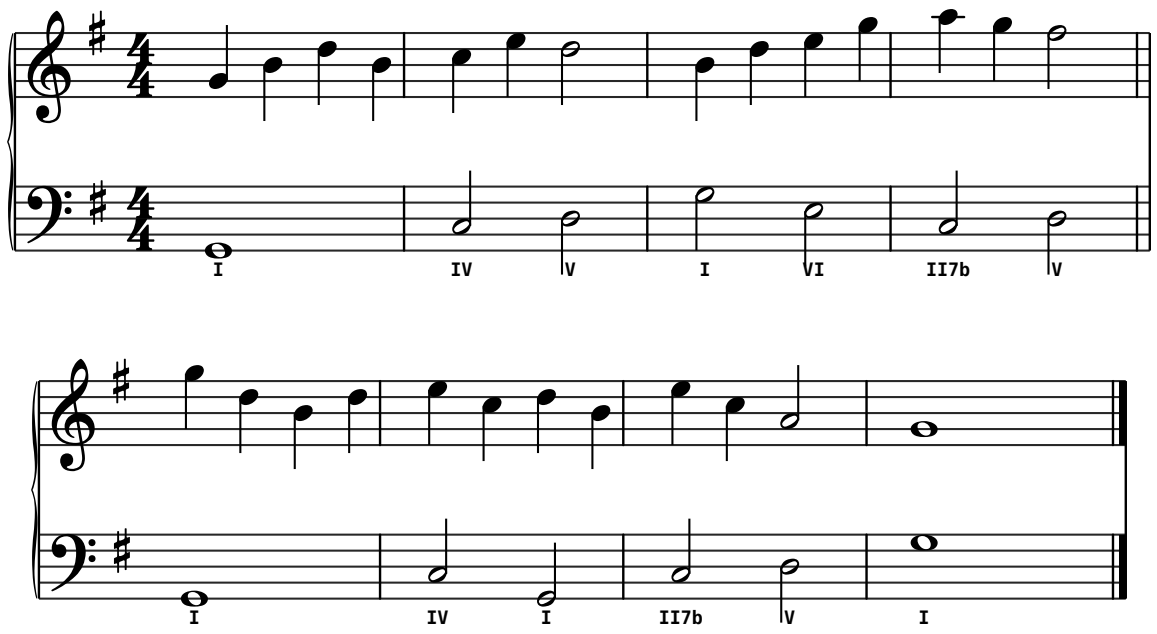

violin range: G3 upwards.

Checklist

1. Every strong-beat note belongs to the chord underneath (other notes may be passing or auxiliary notes)
2. The opening's rhythm comes back, changed or developed
3. A clear shape with a high point, mostly steps with some leaps
4. Bar 4 sounds like a half-way point (imperfect cadence); bar 8 ends on the tonic
5. Leading notes rise and 7ths fall where the chords change

6. It suits the instrument: range, breathing or bowing
7. Tempo, dynamics with a change, slurs and some articulation

One model answer (for Mum)

4 · ON HIS OWN (12 MIN)

- Compose (Grade 7): pick a task and write it on paper.

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Melody over chords: you play the chords; he improvises a tune.

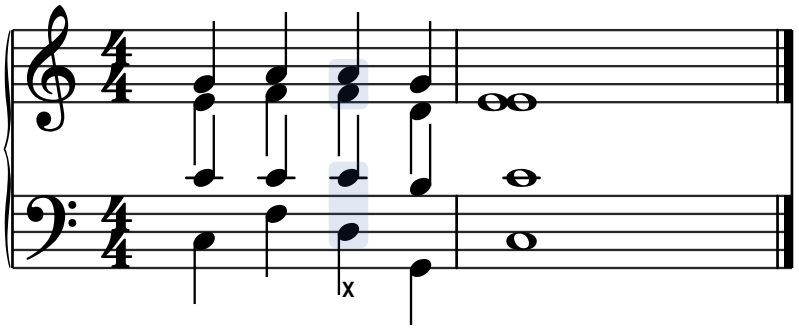

MOVE ON WHEN

Every strong-beat note in his melody belongs to its chord.

Philip's worksheet · Day 70

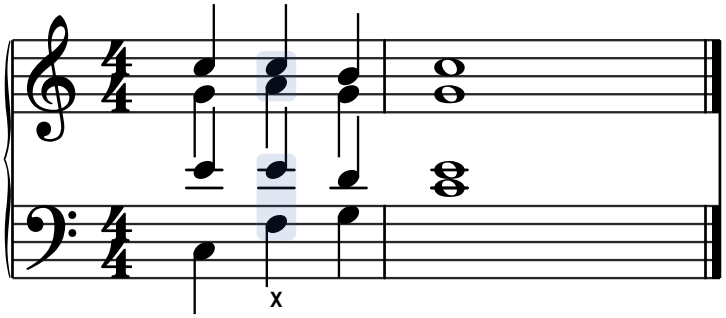

Name _____ Date _____ Score ____ / 8

1. This passage is in C major. Which figures go under the chord marked X?

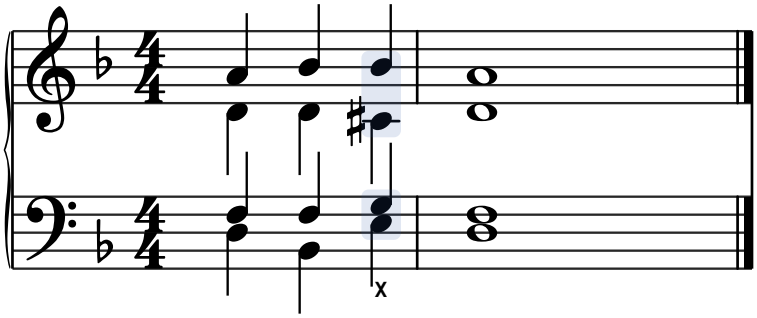

A. 7 B. 5/3 (no figure) C. 4/2 D. 6/5

2. This passage is in C major. Which figures go under the chord marked X?

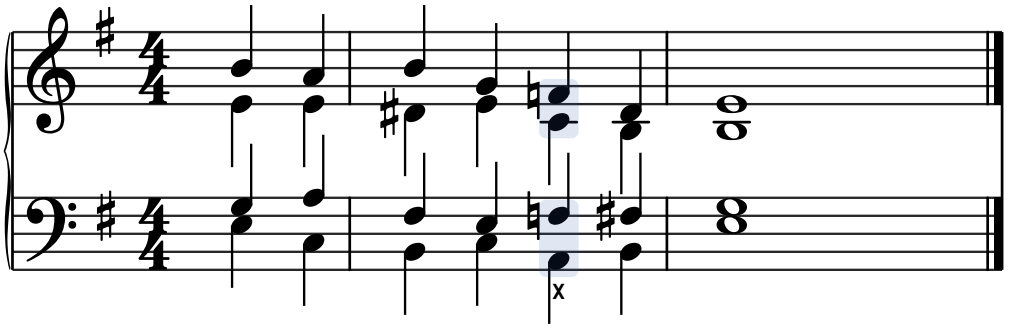

A. 6 B. 6/4 C. 7 D. 4/3

3. This passage is in D minor. What kind of chord is X?

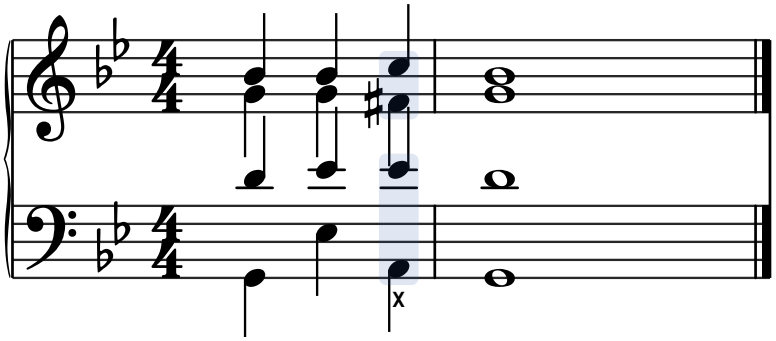

A. a half-diminished 7th (VII7 in a major key) B. a Neapolitan 6th C. a secondary 7th D. a diminished 7th

4. This passage is in E minor. Name the chord marked X.

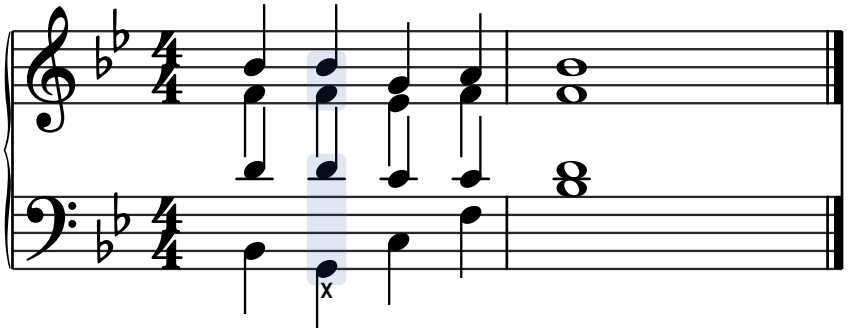

A. II7b B. II7c C. VI7b D. N6

5. This passage is in G minor. Name the chord marked X.

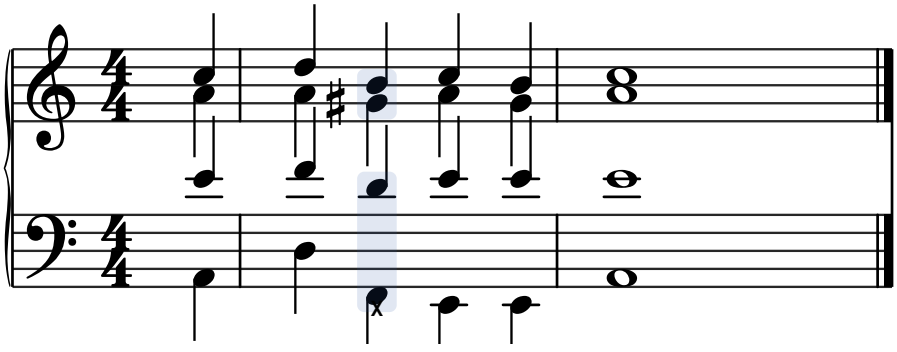

A. I7c B. VII7b C. V7 D. II7c

6. This passage is in B♭ major. Name the chord marked X.

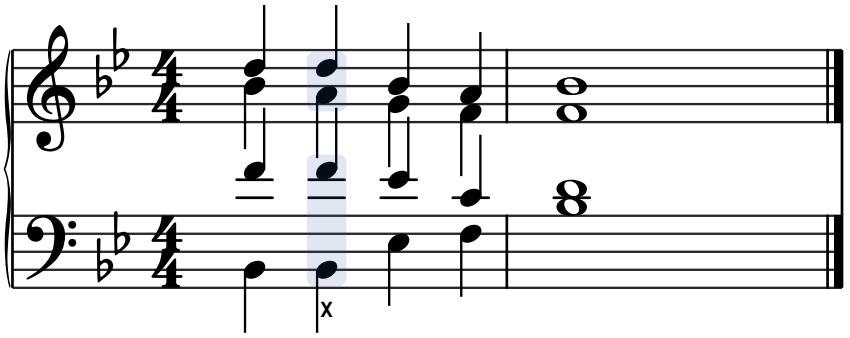

A. V7d B. VI7 C. Vb D. IVc

7. This passage is in A minor. Name the chord marked X.

A. VII7d B. VII7c C. VI7b D. Ib

8. This passage is in B♭ major. What kind of chord is X?

A. a diminished 7th B. a dominant 7th C. a half-diminished 7th (VII7 in a major key) D. a secondary 7th

ANSWERS (FOR MUM)

1. **A: 7**. X is II7 (D–F–A–C). Counting up from the bass D: 7.
2. **C: 7**. X is IV7 (F–A–C–E). Counting up from the bass F: 7.
3. **D: a diminished 7th**. X is C♯–E–G–B♭ (VII7b): a diminished 7th. Built on the raised leading note, it is a stack of minor 3rds; it resolves to I.
4. **D: N6**. X is F–A–C with A in the bass: N6, a Neapolitan 6th (the major chord on the flattened supertonic, in first inversion).
5. **B: VII7b**. X is F♯–A–C–E♭ with A in the bass: VII7b, a diminished 7th, first inversion.
6. **B: VI7**. X is G–B♭–D–F with G in the bass: VI7, a secondary 7th, root position.
7. **A: VII7d**. X is G♯–B–D–F with F in the bass: VII7d, a diminished 7th, third inversion.
8. **D: a secondary 7th**. X is B♭–D–F–A (I7): a secondary 7th. A 7th chord on a degree other than V. Its 7th is normally prepared and falls by step.

Day 71: Shape, rhythm and the opening idea

G7 Compose · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *"A good melody remembers where it came from and knows where it's going."*

- Take the rhythm of the opening bar and reuse it, changed: in sequence, inverted, or with one note value changed.
- Mostly steps, with leaps for character; after a leap, move back by step.
- One climax, near bars 5–6; don't keep returning to the same high note.

Worked example

The opening bar is crotchet–crotchet–minim. How could bar 3 echo it?

1. Same rhythm, starting a step higher (sequence).
2. Or quaver–quaver–crotchet–minim: a small change.

Watch out for

- A new rhythm in every bar: the melody falls apart.

In the exam: Development of the opening is one of the marking points.

Show him these cards

1

Reuse the opening rhythm, changed: in sequence, inverted, or with one note value changed.

2

Mostly steps; after a leap, step back the other way.

3

One climax, around bars 5–6.

3 · DO TOGETHER (10 MIN)

- Mark the rhythm patterns in two model answers.

Four questions to work through together

1. The preparation of a suspension must be…

A. in a different part B. a concord in the chord before C. a dissonance D. on a weak beat only

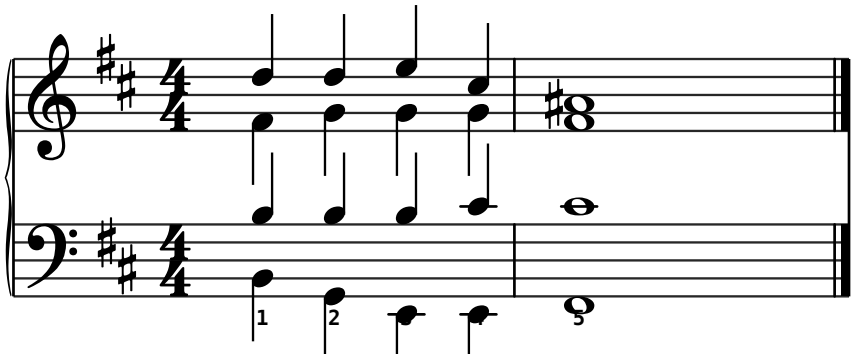

Answer: a concord in the chord before. The note is first heard as a concord (the preparation), then held as the chord changes.

2. The suspension itself falls on…

A. a strong beat B. a weak beat C. the last beat only D. any beat, it doesn't matter

Answer: a strong beat. The clash happens on the strong beat; the resolution comes on a weaker part of the beat or bar.

3. Where could you add a suspension? (B minor)

A. tenor, into chord 5 B. alto, into chord 3 C. alto, into chord 5 D. soprano, into chord 2

Answer: alto, into chord 5. In the alto, hold G from chord 4 into chord 5, then fall to F♯: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.

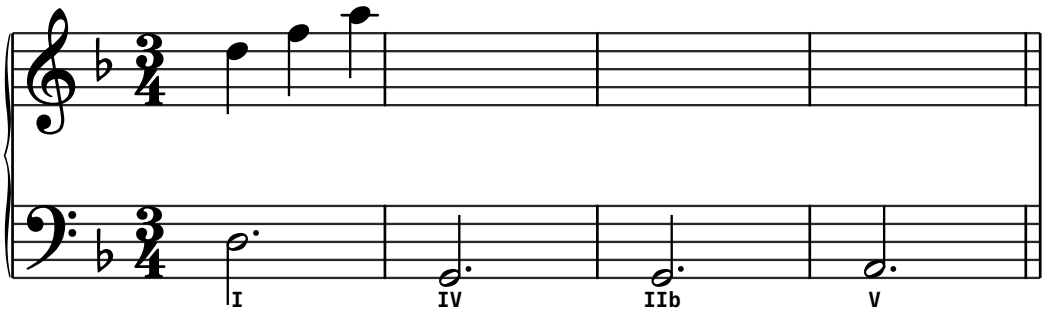

4. The most common suspension at a perfect cadence is…

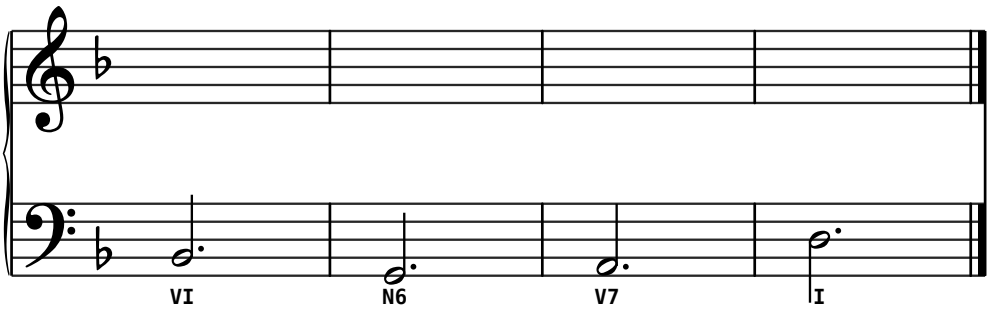

A. 2–3 over V B. 9–8 over I C. 7–6 over IV D. 4–3 over V

Answer: 4–3 over V. The tonic is held over the dominant bass (a 4th) and falls to the leading note (the 3rd): 4–3 over V.

TODAY'S COMPOSITION TASK

Write a melody for flute over this chord plan. The first bar is given; continue to the end of bar 8.

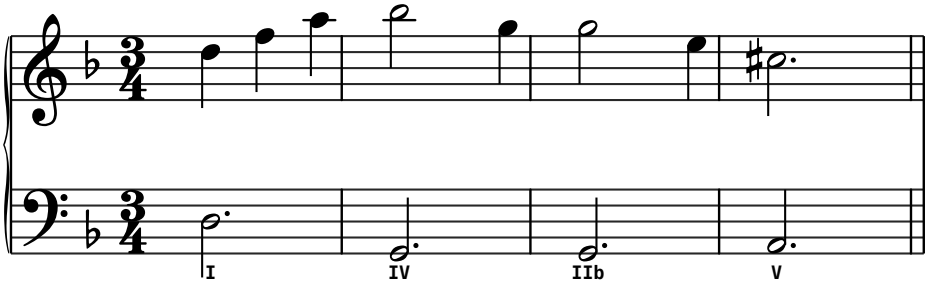

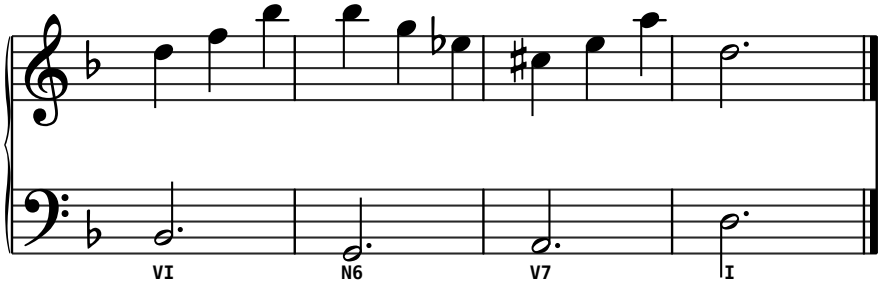

flute range: C4 to about C7.

Checklist

1. Every strong-beat note belongs to the chord underneath (other notes may be passing or auxiliary notes)
2. The opening's rhythm comes back, changed or developed
3. A clear shape with a high point, mostly steps with some leaps
4. Bar 4 sounds like a half-way point (imperfect cadence); bar 8 ends on the tonic
5. Leading notes rise and 7ths fall where the chords change
6. It suits the instrument: range, breathing or bowing
7. Tempo, dynamics with a change, slurs and some articulation

One model answer (for Mum)

4 · ON HIS OWN (12 MIN)

- Compose (Grade 7).

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Echo and change: you clap a rhythm, he answers with a changed version.

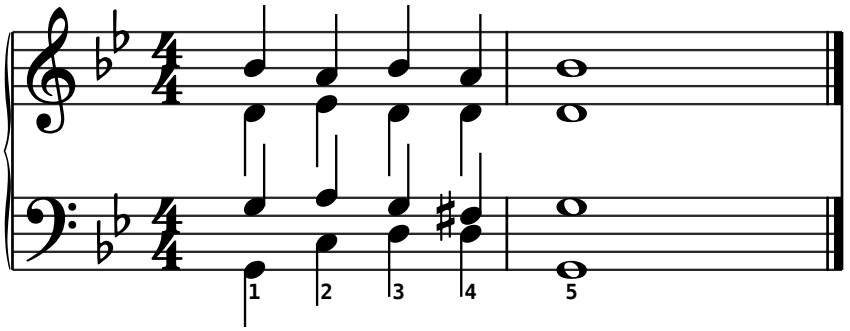

MOVE ON WHEN

His melody reuses and develops the opening rhythm.

Philip's worksheet · Day 71

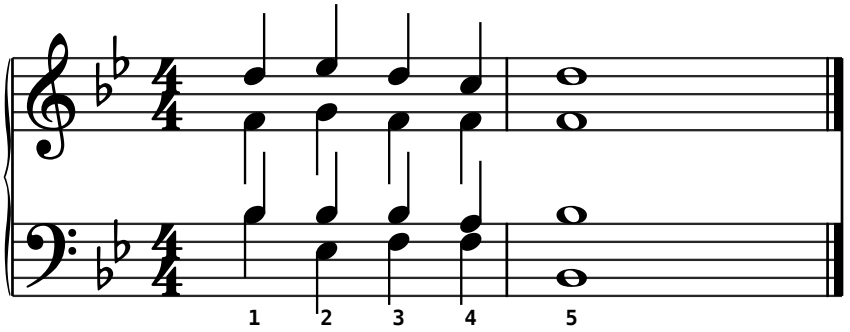

Name _____ Date _____ Score ____ / 8

1. Where could you add a suspension? (G minor)

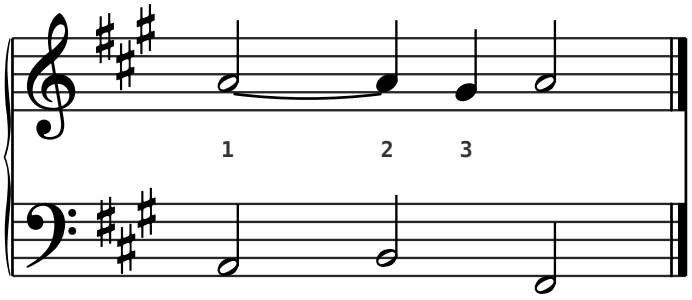

A. alto, into chord 5 B. tenor, into chord 3 C. alto, into chord 3 D. tenor, into chord 5

2. Where could you add a suspension? (B♭ major)

A. soprano, into chord 3 B. alto, into chord 4 C. tenor, into chord 3 D. soprano, into chord 2

3. In this suspension, which note is the resolution? (F♯ minor)

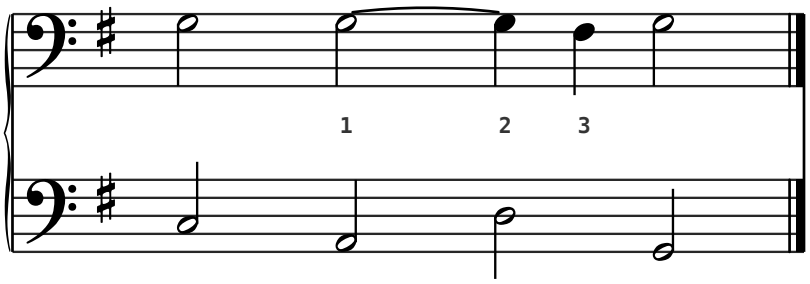

A. Note 1 B. Note 3 C. Note 2

4. The most common suspension at a perfect cadence is…

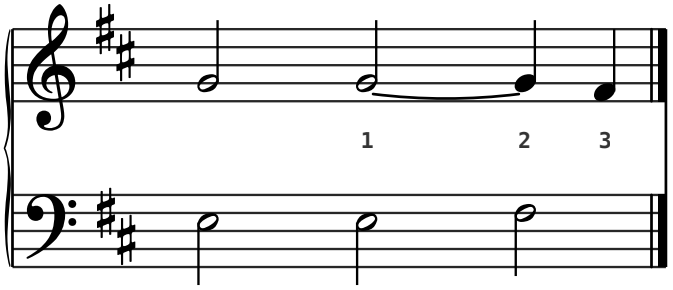

A. 7–6 over IV B. 9–8 over I C. 4–3 over V D. 2–3 over V

5. In this suspension, which note is the preparation? (G major)

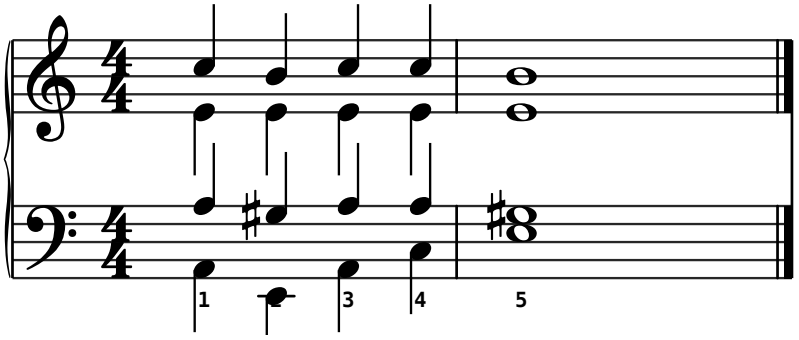

A. Note 1 B. Note 2 C. Note 3

6. Note 2 is a suspension over the bass. What kind? (B minor)

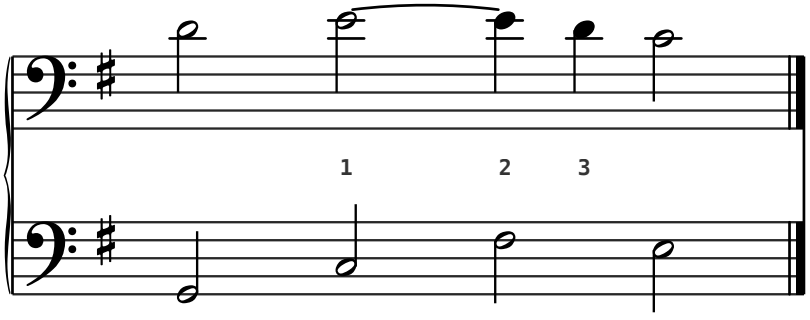

A. 2–3 B. 7–6 C. 9–8 D. 4–3

7. Where could you add a suspension? (A minor)

A. alto, into chord 4 B. tenor, into chord 5 C. soprano, into chord 5 D. alto, into chord 5

8. Note 2 is a suspension over the bass. What kind? (G major)

A. 9–8 B. 7–6 C. 2–3 D. 4–3

ANSWERS (FOR MUM)

1. **C: alto, into chord 3**. In the alto, hold E♭ from chord 2 into chord 3, then fall to D: a 9–8 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
2. **A: soprano, into chord 3**. In the soprano, hold E♭ from chord 2 into chord 3, then fall to D: a 7–6 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
3. **B: Note 3**. Note 1 is the preparation (a concord, tied over). Note 2 is the suspension: the same note, now clashing with the new bass on the strong beat. Note 3 is the resolution, a step down.
4. **C: 4–3 over V**. The tonic is held over the dominant bass (a 4th) and falls to the leading note (the 3rd): 4–3 over V.
5. **A: Note 1**. Note 1 is the preparation (a concord, tied over). Note 2 is the suspension: the same note, now clashing with the new bass on the strong beat. Note 3 is the resolution, a step down.
6. **C: 9–8**. Note 2 (G) is held over from note 1 and makes a 9th above the bass F♯; it falls to F♯, a octave. So it's a 9–8 suspension.
7. **B: tenor, into chord 5**. In the tenor, hold A from chord 4 into chord 5, then fall to G♯: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
8. **B: 7–6**. Note 2 (E) is held over from note 1 and makes a 7th above the bass F♯; it falls to D, a 6th. So it's a 7–6 suspension.

Day 72: Writing for the instrument

G7 Compose · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *“Write so a real player would enjoy playing it.”*

- Range: stay well inside it (violin from G3, flute from C4, cello from C2, viola from C3, oboe from B♭3).
- Strings: slurs show bowing; wind: phrases need places to breathe.
- Performance directions: a tempo word, dynamics with a change, slurs and some articulation (staccato, accents, tenuto).

Worked example

What performance directions should every answer have?

1. A tempo word (e.g. Andante).
2. A starting dynamic and at least one change.
3. Phrasing slurs and some staccato or accents.

Watch out for

- No breathing places for a wind instrument.
- Notes below the instrument's range.

In the exam: Performance directions are easy marks: never forget them.

Show him these cards

1

Stay inside the range: violin from G3, viola from C3, cello from C2, flute from C4, oboe from B♭3.

2

Strings: slurs show bowing. Wind: leave places to breathe.

3

Performance directions: tempo, dynamics with a change, slurs, some articulation.

3 · DO TOGETHER (10 MIN)

- Add full performance directions to one of his melodies.

Four questions to work through together

1. What does this mean?

morendo

A. tearful, sad B. dying away C. mournful D. coaxing, caressing

Answer: dying away. morendo means "dying away".

2. What does this mean?

un peu

A. both players play the same part B. flutter-tonguing (German) C. calmly D. a little (French)

Answer: a little (French). un peu means "a little (French)".

3. Which term means "broadly (German)"?

A. breit B. pesante C. gestopft D. très

Answer: breit. breit means "broadly (German)".

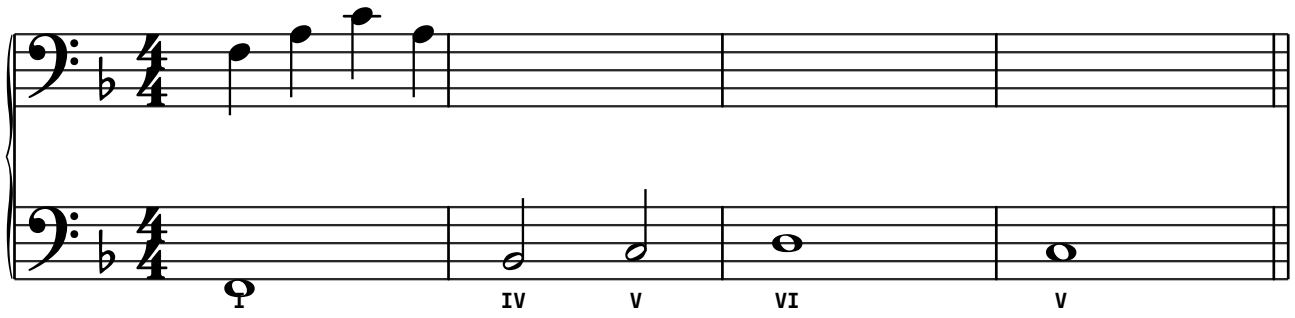

4. Which term means "stopped: hand in the bell of the horn (German)"?

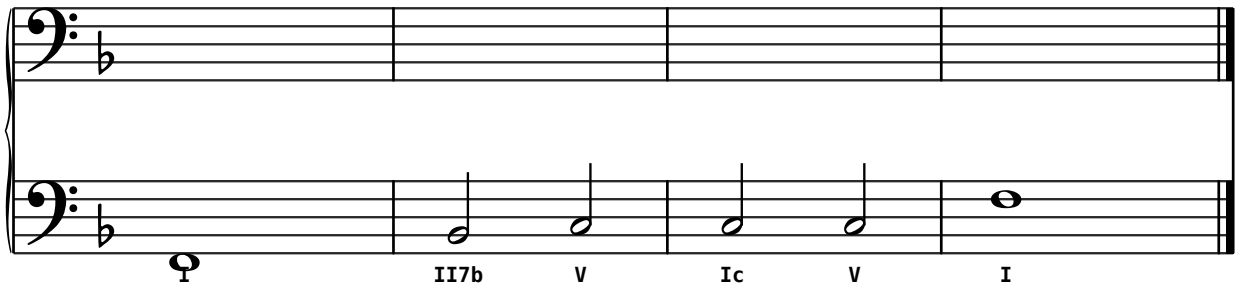

A. sul tasto B. attacca C. col legno D. gestopft

Answer: gestopft. gestopft means "stopped: hand in the bell of the horn (German)".

TODAY'S COMPOSITION TASK

Write a melody for cello over this chord plan. The first bar is given; continue to the end of bar 8.

cello range: C2 upwards (tenor clef for high notes).

Checklist

1. Every strong-beat note belongs to the chord underneath (other notes may be passing or auxiliary notes)
2. The opening's rhythm comes back, changed or developed
3. A clear shape with a high point, mostly steps with some leaps
4. Bar 4 sounds like a half-way point (imperfect cadence); bar 8 ends on the tonic
5. Leading notes rise and 7ths fall where the chords change
6. It suits the instrument: range, breathing or bowing
7. Tempo, dynamics with a change, slurs and some articulation

One model answer (for Mum)

4 · ON HIS OWN (12 MIN)

- Compose (Grade 7).

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Play it: he plays his melody on violin; is it comfortable?

MOVE ON WHEN

Every melody has tempo, dynamics, slurs and articulation.

Philip's worksheet · Day 72

Name _____ Date _____ Score ____ / 8

1. Which term means "heavily"?

A. un peu B. flautando C. pesante D. très

2. What does this mean?

tranquillo

A. go straight on to the next movement B. broadly (German) C. calmly D. tearful, sad

3. Which term means "a little (French)"?

A. un peu B. divisi (div.) C. breit D. tranquillo

4. Which term means "mysteriously"?

A. etwas B. flautando C. misterioso D. tranquillo

5. What does this mean?

très

A. very (French) B. lively, with swing (German) C. brought out, prominent (French) D. go straight on to the next movement

6. Which term means "somewhat, rather (German)"?

A. misterioso B. cédez C. tempo primo (Tempo I) D. etwas

7. Which term means "bow near the bridge"?

A. calando B. Flatterzunge C. perdendosi D. sul ponticello

8. What does this mean?

col legno

A. with the wood of the bow B. go straight on to the next movement C. both players play the same part D. as if, almost

ANSWERS (FOR MUM)

1. **C: pesante**. pesante means "heavily".
2. **C: calmly**. tranquillo means "calmly".
3. **A: un peu**. un peu means "a little (French)".
4. **C: misterioso**. misterioso means "mysteriously".
5. **A: very (French)**. très means "very (French)".
6. **D: etwas**. etwas means "somewhat, rather (German)".
7. **D: sul ponticello**. sul ponticello means "bow near the bridge".
8. **A: with the wood of the bow**. col legno means "with the wood of the bow".

Day 73: Completing a solo part over a piano accompaniment

G7 Compose · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *“You're writing a duet partner for the pianist: listen to what the piano already says.”*

- The other choice in question 3: the piano accompaniment is given in full, with the solo part's opening. You complete the solo.
- Read the harmony from the piano (bass and chords) beat by beat, then write the solo just as over a chord plan.
- Keep the solo's character from its opening; let it rest sometimes when the piano has the interest.

Worked example

The piano's left hand has G and its right hand B–D: what chord?

1. G–B–D.
2. In C major that's V; in G major it's I.
3. Your solo's strong-beat note: G, B or D.

Watch out for

- Doubling the piano's melody exactly all the time.

In the exam: Choose whichever option suits you better on the day.

Show him these cards

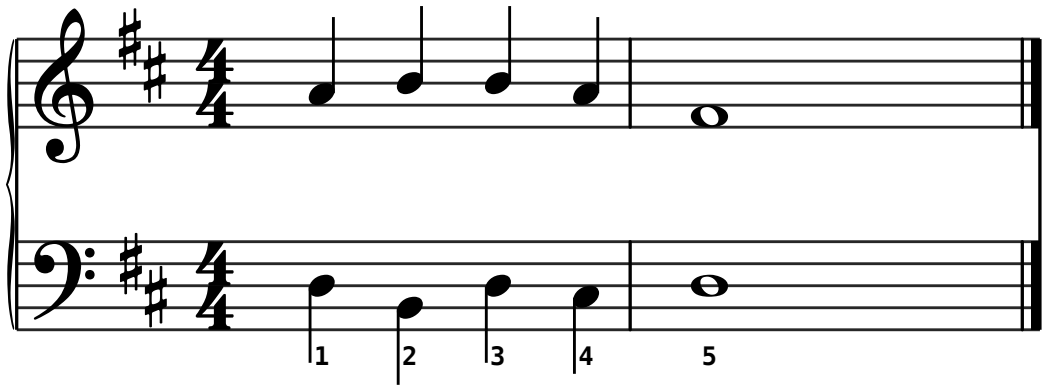

1	2	3
The other choice: the piano accompaniment is given; complete the solo part.	Read the chords from the piano beat by beat, then write the solo as over a chord plan.	Keep the solo's character; let it rest sometimes when the piano is busy.

3 · DO TOGETHER (10 MIN)

- Read the chords from a piano part in the lesson pack, then write the solo for two bars.

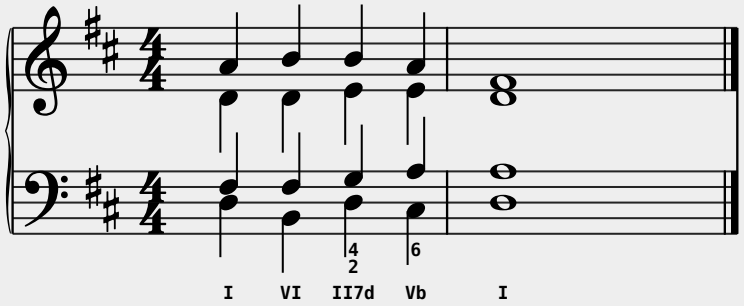

Four questions to work through together

1. The melody and bass are given (D major). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

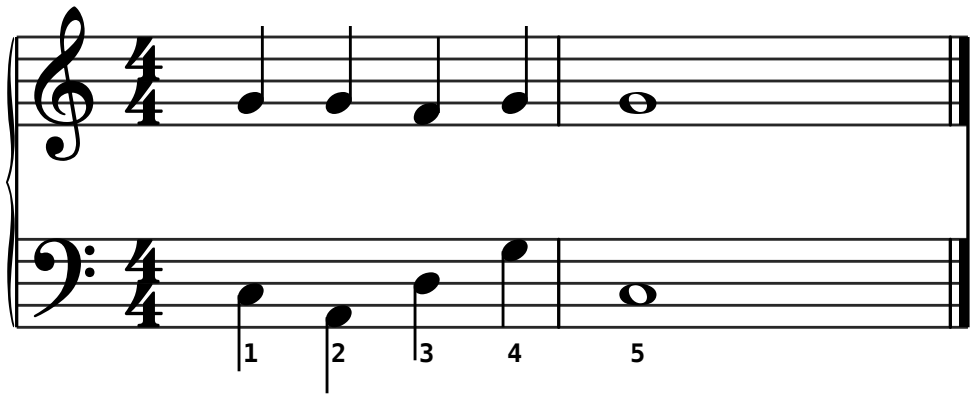

Write the figures under each bass note.

Answer: One good figuring: 5/3 · 5/3 · 4/2 · 6 · 5/3.

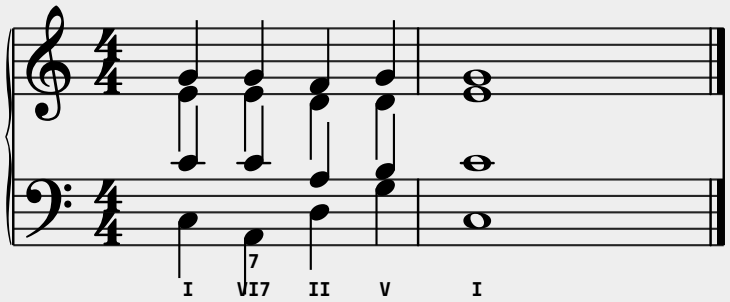

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

2. The melody and bass are given (C major). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

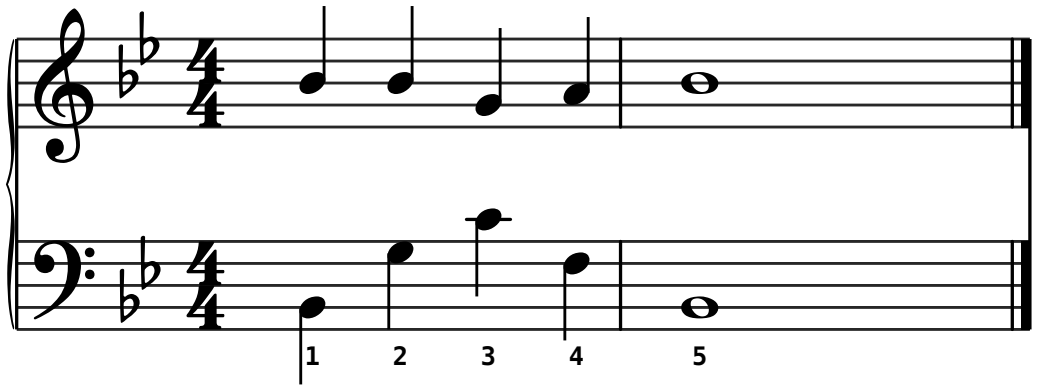

Write the figures under each bass note.

Answer: One good figuring: 5/3 · 7 · 5/3 · 5/3 · 5/3.

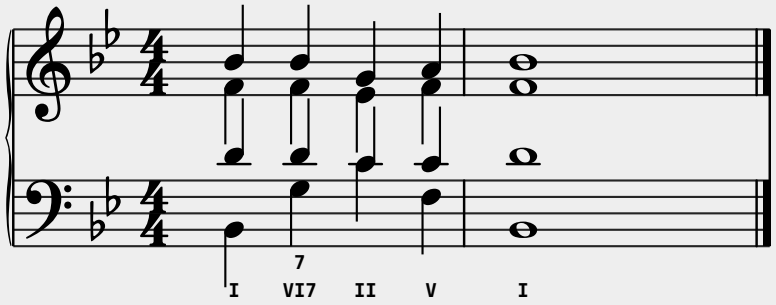

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

3. The melody and bass are given (B♭ major). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

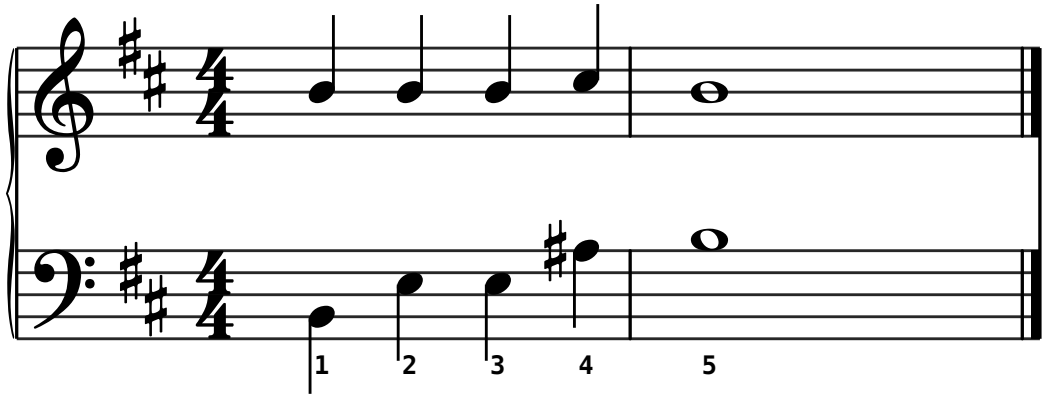

Write the figures under each bass note.

Answer: One good figuring: 5/3 · 7 · 5/3 · 5/3 · 5/3.

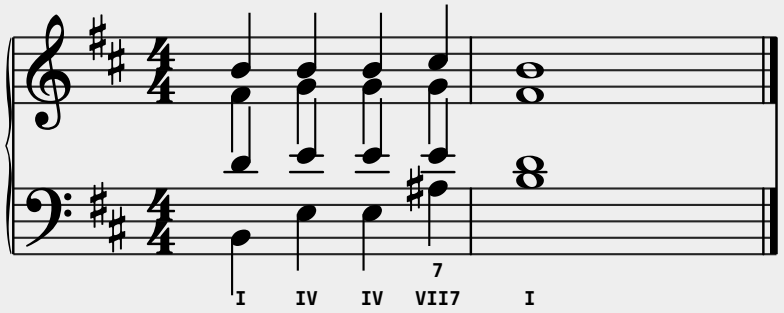

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

4. The melody and bass are given (B minor). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

Write the figures under each bass note.

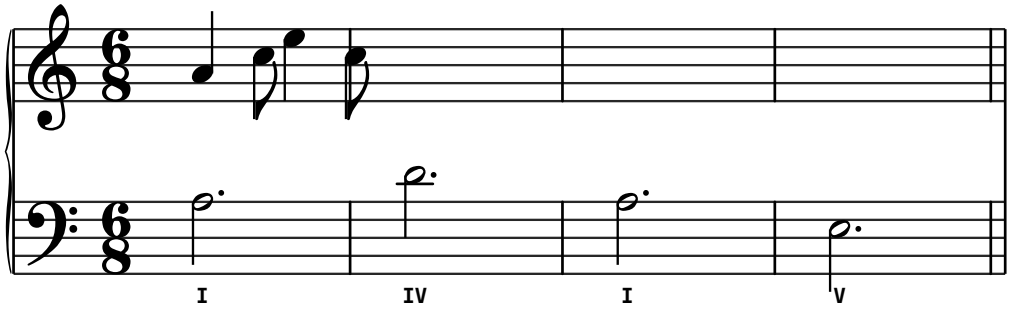

Answer: One good figuring: 5/3 · 5/3 · 5/3 · 7 · 5/3.

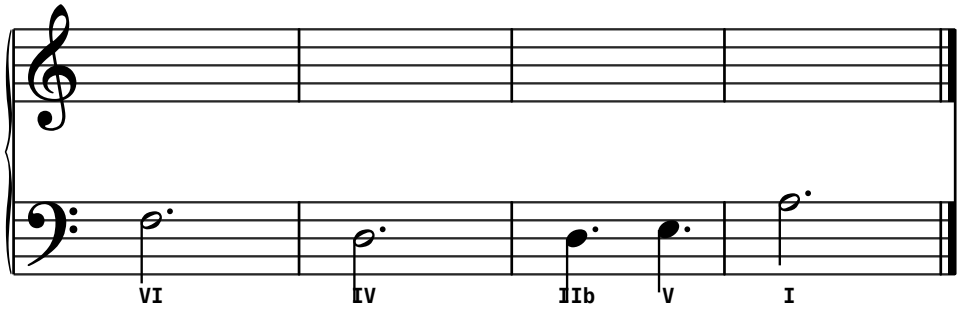

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

TODAY'S COMPOSITION TASK

Write a melody for oboe over this chord plan. The first bar is given; continue to the end of bar 8.

oboe range: B♭3 to about F6.

Checklist

1. Every strong-beat note belongs to the chord underneath (other notes may be passing or auxiliary notes)
2. The opening's rhythm comes back, changed or developed
3. A clear shape with a high point, mostly steps with some leaps
4. Bar 4 sounds like a half-way point (imperfect cadence); bar 8 ends on the tonic
5. Leading notes rise and 7ths fall where the chords change
6. It suits the instrument: range, breathing or bowing
7. Tempo, dynamics with a change, slurs and some articulation

One model answer (for Mum)

4 · ON HIS OWN (12 MIN)

- Compose (Grade 7).

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Duet: he plays his solo while you play the piano part.

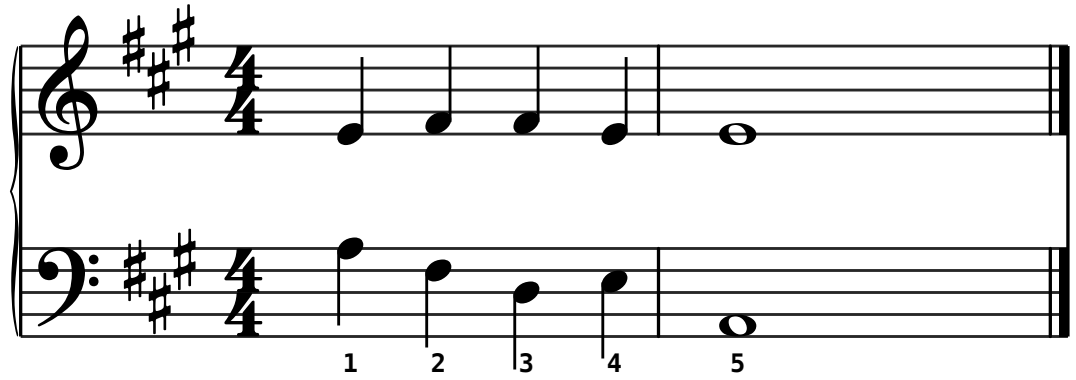

MOVE ON WHEN

He can read the chords from a piano accompaniment.

Philip's worksheet · Day 73

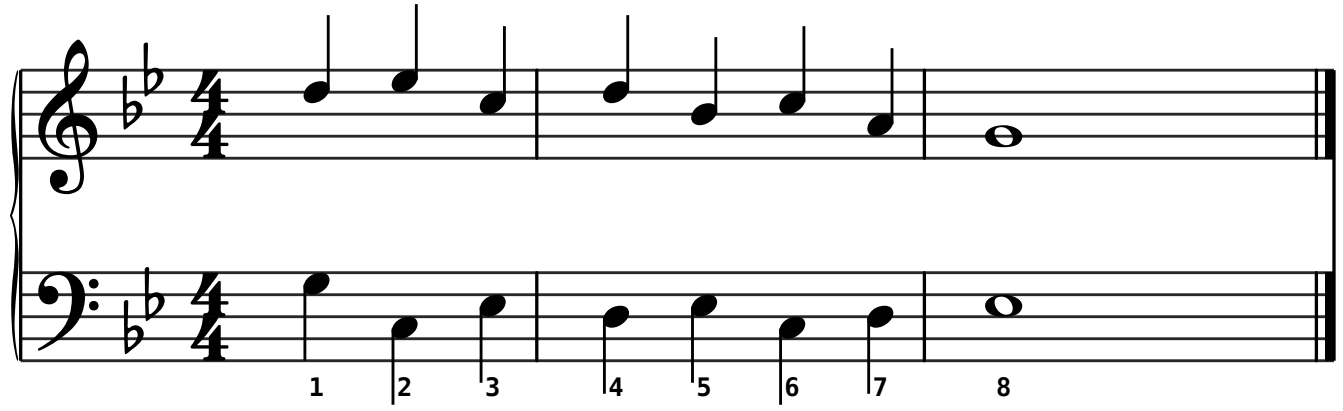

Name _____ Date _____ Score ____ / 8

1. The melody and bass are given (A major). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

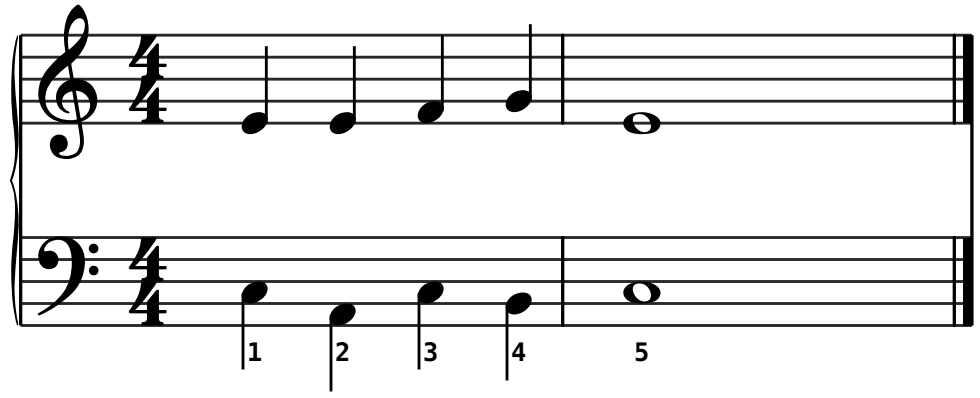

Write the figures under each bass note.

2. The melody and bass are given (G minor). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

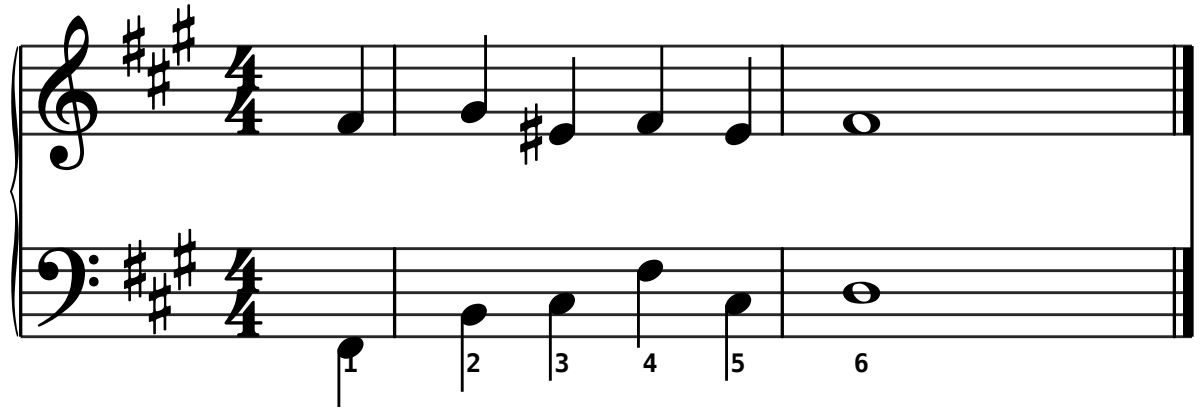

Write the figures under each bass note.

3. The melody and bass are given (C major). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

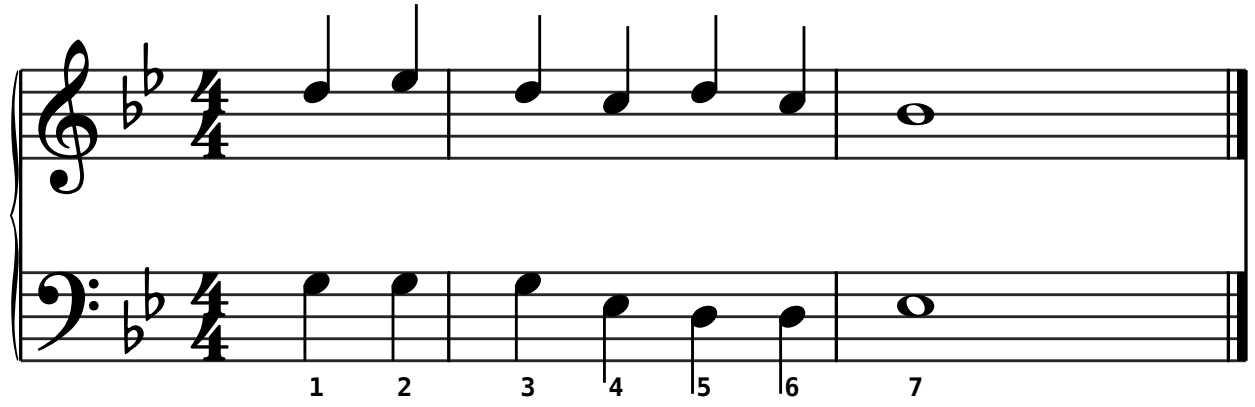

Write the figures under each bass note.

4. The melody and bass are given (F♯ minor). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

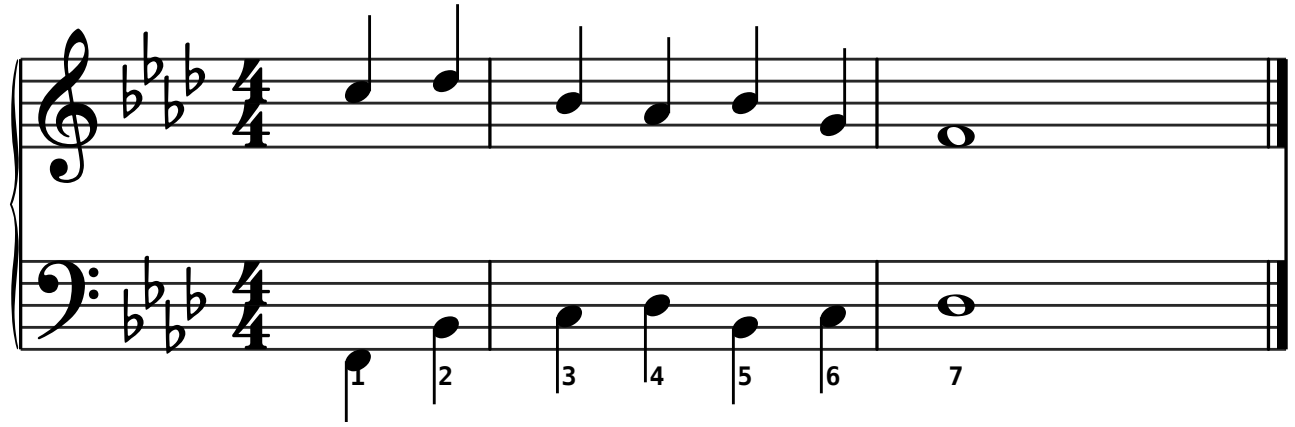

Write the figures under each bass note.

5. The melody and bass are given (G minor). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

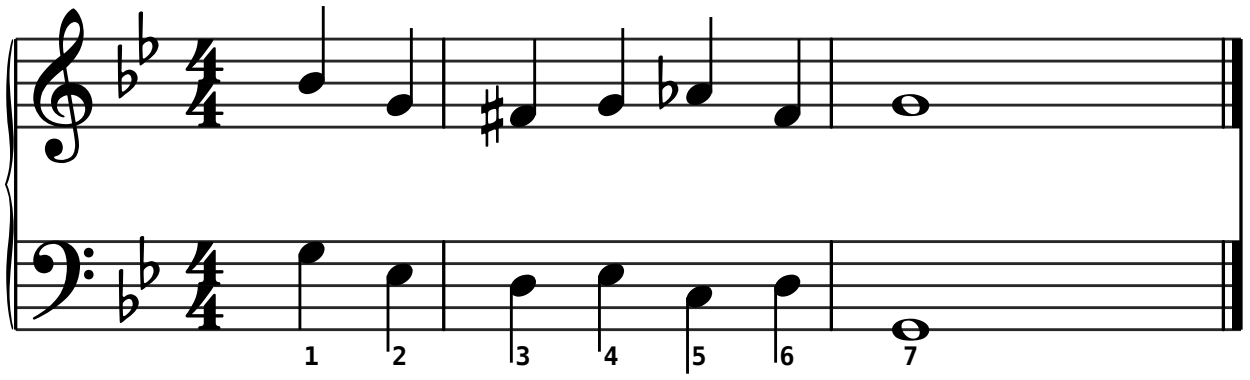

Write the figures under each bass note.

6. The melody and bass are given (F minor). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

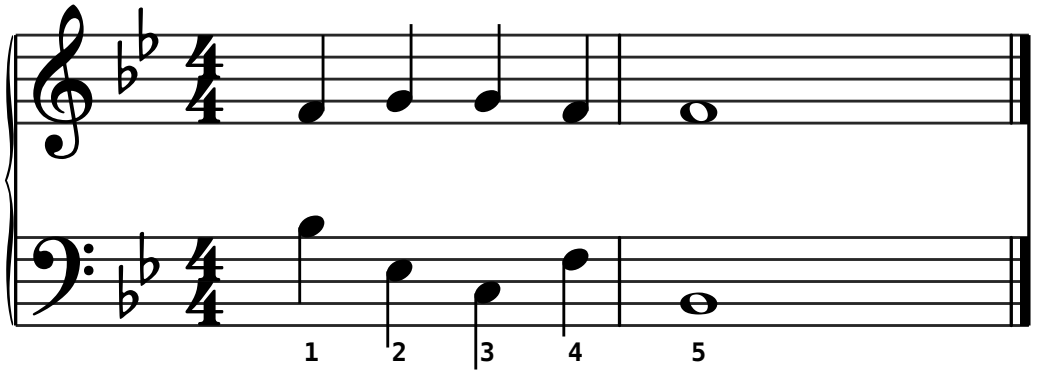

Write the figures under each bass note.

7. The melody and bass are given (G minor). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

Write the figures under each bass note.

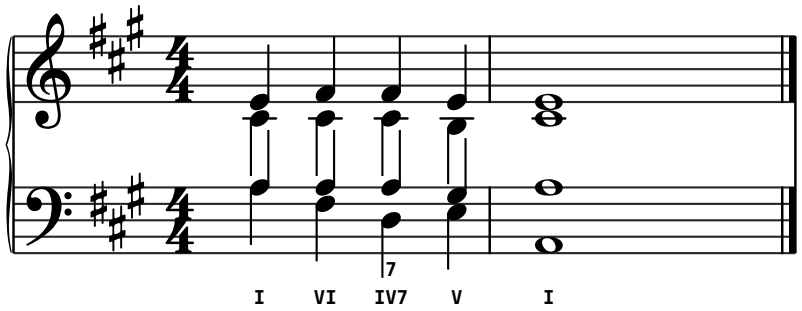

8. The melody and bass are given (B♭ major). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

Write the figures under each bass note.

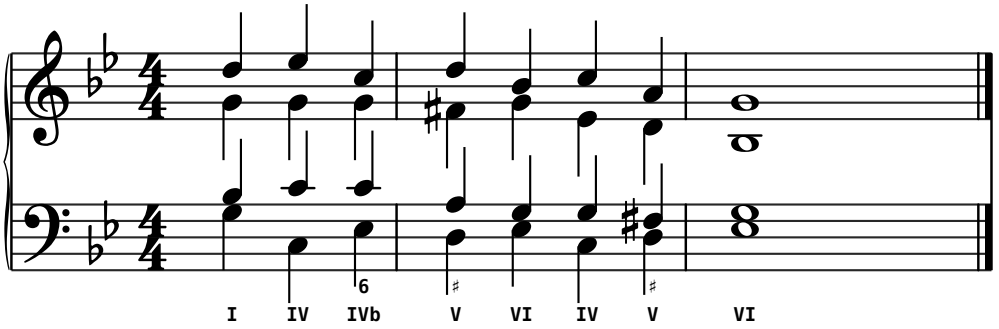

ANSWERS (FOR MUM)

1. **One good figuring: 5/3 · 5/3 · 7 · 5/3 · 5/3**.

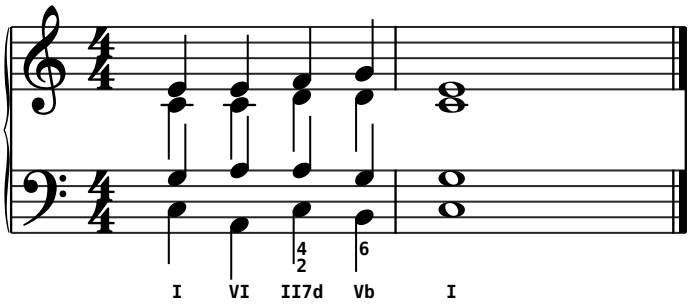

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

2. **One good figuring: 5/3 · 5/3 · 6 · ♯ · 5/3 · 5/3 · ♯ · 5/3**.

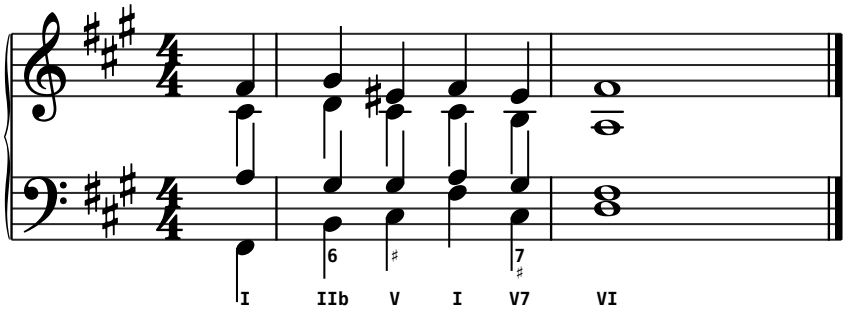

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

3. **One good figuring: 5/3 · 5/3 · 4/2 · 6 · 5/3**.

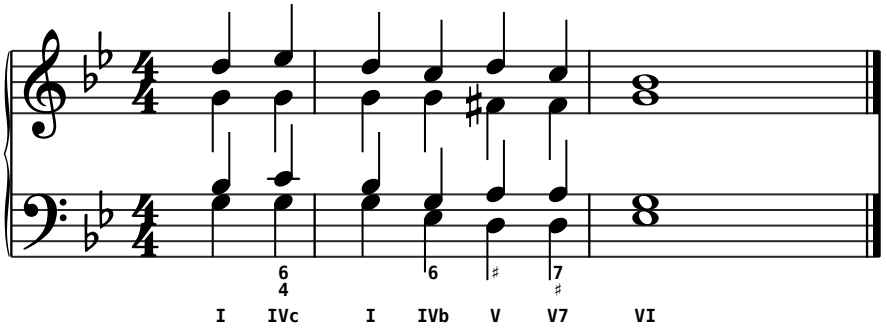

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

4. **One good figuring: 5/3 · 6 · ♯ · 5/3 · 7/♯ · 5/3**.

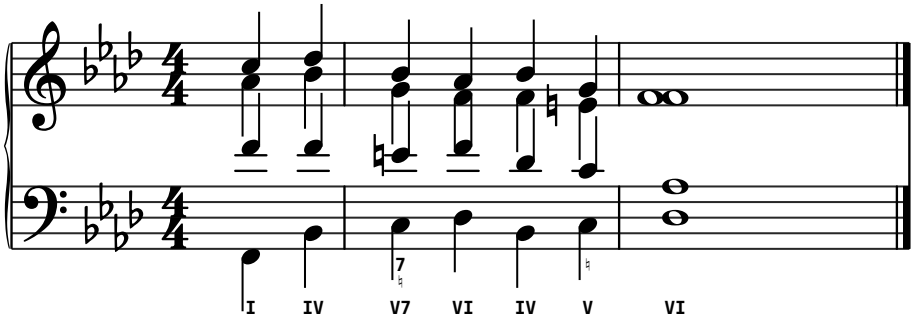

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

5. **One good figuring: 5/3 · 6/4 · 5/3 · 6 · ♯ · 7/♯ · 5/3**.

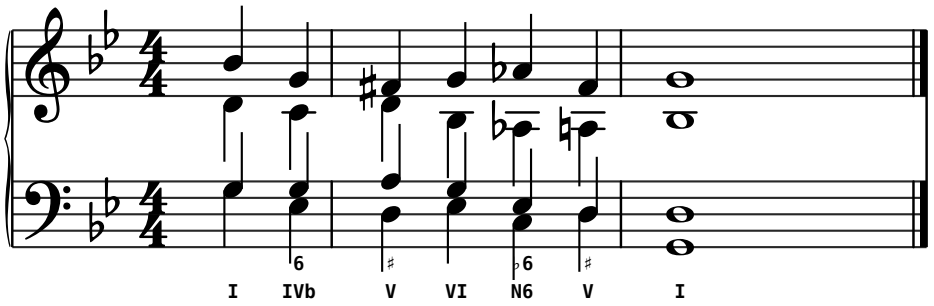

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

6. **One good figuring: 5/3 · 5/3 · 7/♮ · 5/3 · 5/3 · ♮ · 5/3**.

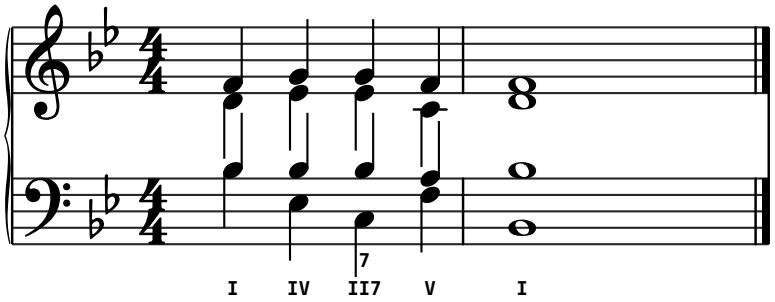

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

7. **One good figuring: 5/3 · 6 · ♯ · 5/3 · ♭6 · ♯ · 5/3**.

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

8. **One good figuring: 5/3 · 5/3 · 7 · 5/3 · 5/3**.

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

Day 74: Colour chords in a melody

G7 Compose · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

Say: *“Colour chords are where your melody can be most expressive.”*

- Over a Neapolitan, the melody can use the ♭2 (in C minor, D♭) and let it fall to the leading note.
- Over a diminished 7th, use the leading note or the 7th; resolve to I.
- Over secondary 7ths, the melody can take the 7th, then fall by step.

Worked example

N6 in E minor: which melody notes fit?

1. N6 = F–A–C (F natural).
2. Use F, A or C; F falling to D♯ over V is very expressive.

Watch out for

- Writing F♯ over the Neapolitan in E minor (it must be F♮).

In the exam: The model answers in Compose (Grade 7) show how.

Show him these cards

1

Over a Neapolitan, use the ♭2 and let it fall to the leading note.

2

Over a diminished 7th, use the leading note or the 7th; resolve to I.

3

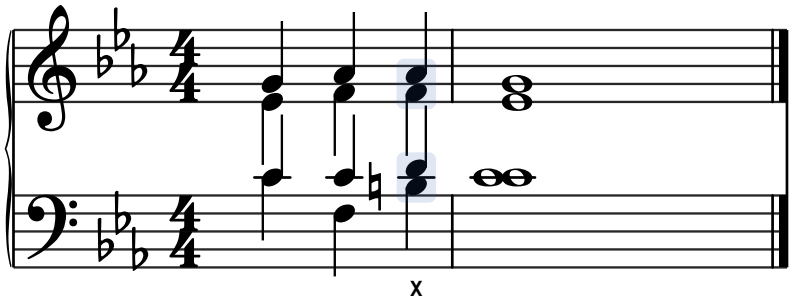

Over a secondary 7th, the melody can take the 7th, then fall by step.

3 · DO TOGETHER (10 MIN)

- Find the N6 and VII7 bars in a Compose task and plan the melody notes there.

Four questions to work through together

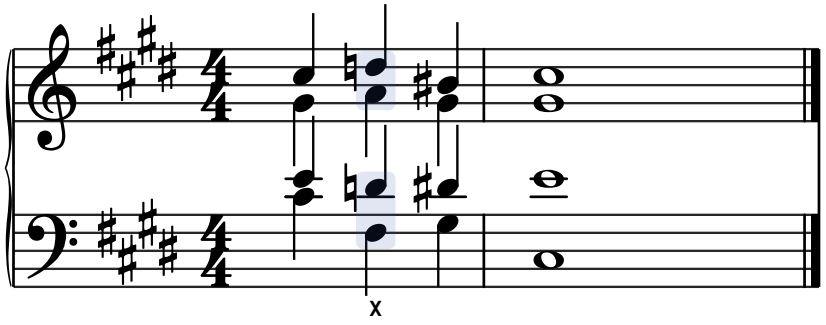

1. This passage is in C minor. Which figures go under the chord marked X?

A. ♮6/5 B. 7 C. 4/♮3 D. 6/♮5

Answer: 7. X is VII7 (B–D–F–A♭). Counting up from the bass B: 7.

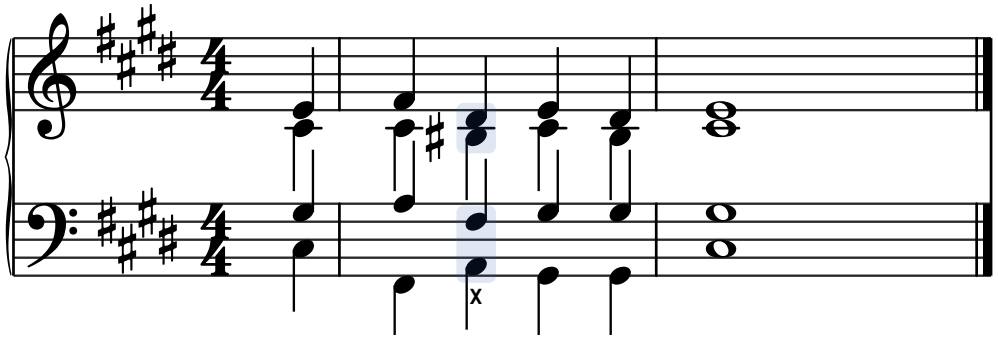

2. This passage is in C♯ minor. Name the chord marked X.

A. VII7b B. N6 C. Vb D. IV7b

Answer: N6. X is D–F♯–A with F♯ in the bass: N6, a Neapolitan 6th (the major chord on the flattened supertonic, in first inversion).

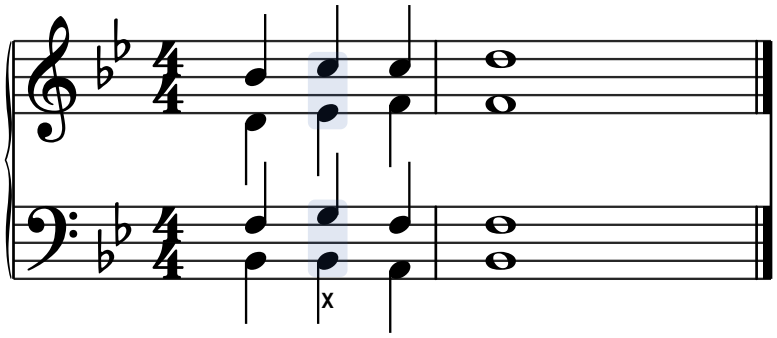

3. This passage is in C♯ minor. What kind of chord is X?

A. a diminished 7th B. a dominant 7th C. a half-diminished 7th (VII7 in a major key) D. a Neapolitan 6th

Answer: a diminished 7th. X is B♯–D♯–F♯–A (VII7d): a diminished 7th. Built on the raised leading note, it is a stack of minor 3rds; it resolves to I.

4. This passage is in B♭ major. Name the chord marked X.

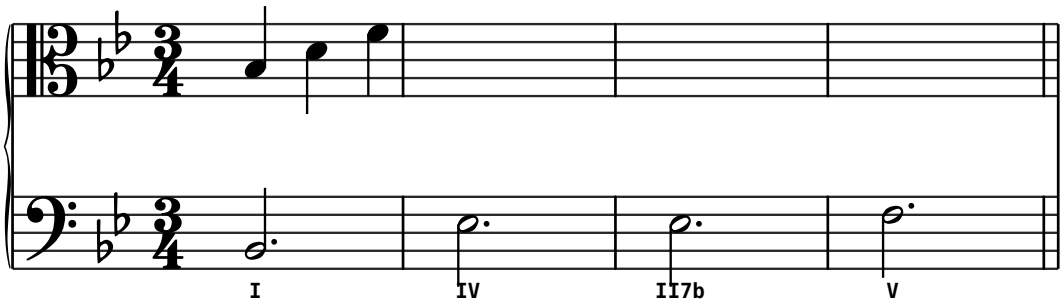

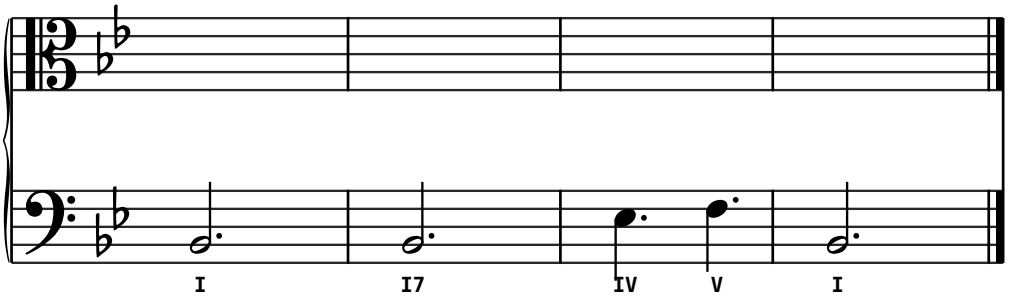

A. II B. VI7 C. IIb D. II7d

Answer: II7d. X is C–E♭–G–B♭ with B♭ in the bass: II7d, a secondary 7th, third inversion.

TODAY'S COMPOSITION TASK

Write a melody for viola over this chord plan. The first bar is given; continue to the end of bar 8.

viola range: C3 upwards (comfortably up to about E5).

Checklist

1. Every strong-beat note belongs to the chord underneath (other notes may be passing or auxiliary notes)
2. The opening's rhythm comes back, changed or developed
3. A clear shape with a high point, mostly steps with some leaps
4. Bar 4 sounds like a half-way point (imperfect cadence); bar 8 ends on the tonic
5. Leading notes rise and 7ths fall where the chords change
6. It suits the instrument: range, breathing or bowing

7. Tempo, dynamics with a change, slurs and some articulation

One model answer (for Mum)

4 · ON HIS OWN (12 MIN)

- Compose (Grade 7).

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Spot the colour: he plays his melody; you play the chords; does the colour chord stand out?

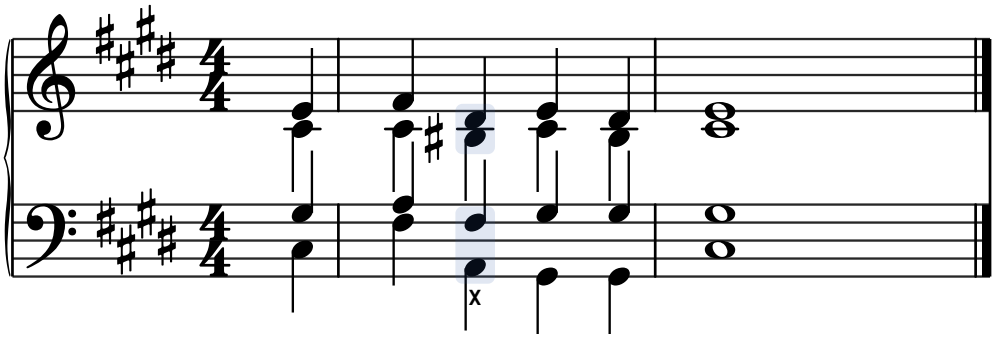

MOVE ON WHEN

He handles an N6 or a diminished 7th bar well.

Philip's worksheet · Day 74

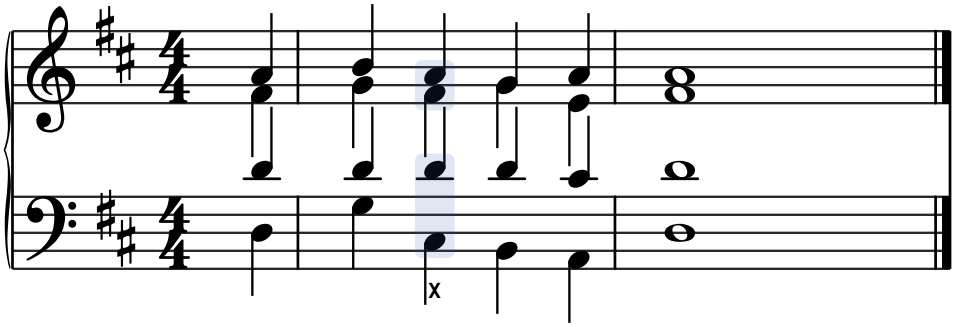

Name _____ Date _____ Score ____ / 8

1. This passage is in C♯ minor. Name the chord marked X.

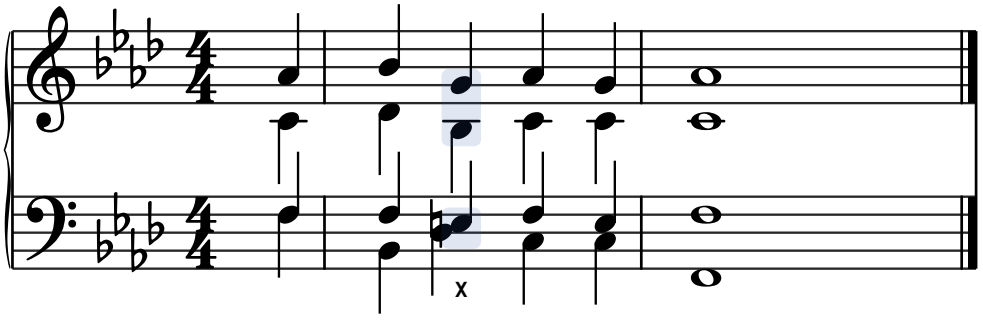

A. VII7d B. IVc C. VI7 D. VIb

2. This passage is in D major. Name the chord marked X.

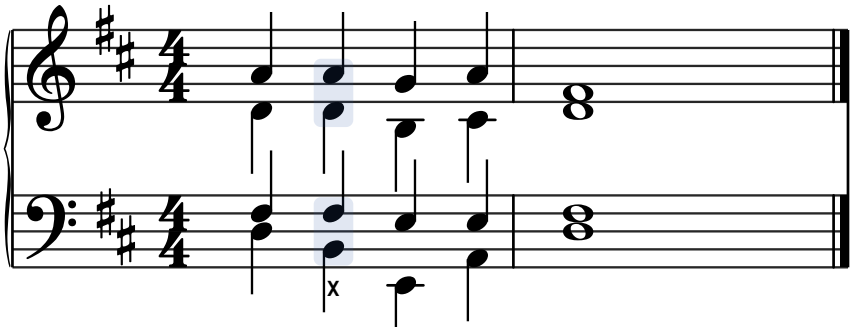

A. I7d B. I C. VIb D. Vc

3. This passage is in F minor. Name the chord marked X.

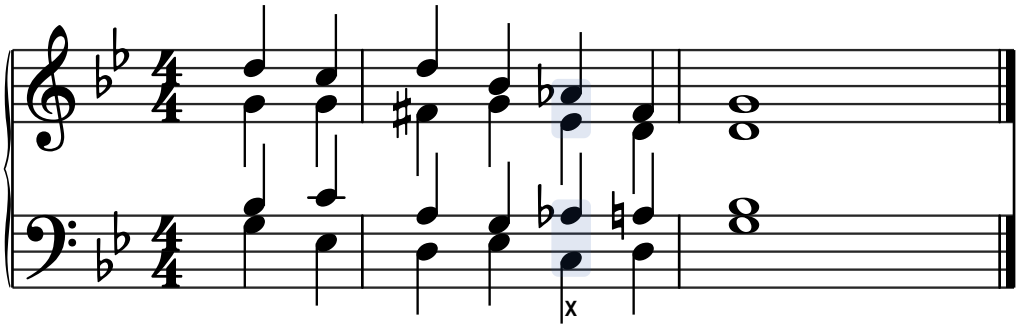

A. IVb B. VII7d C. VIIb D. V7c

4. This passage is in D major. Name the chord marked X.

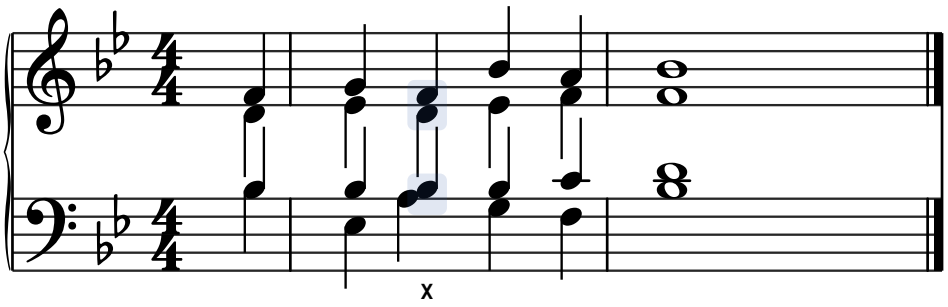

A. VI7 B. VI7b C. VII7d D. Ic

5. This passage is in G minor. Which figures go under the chord marked X?

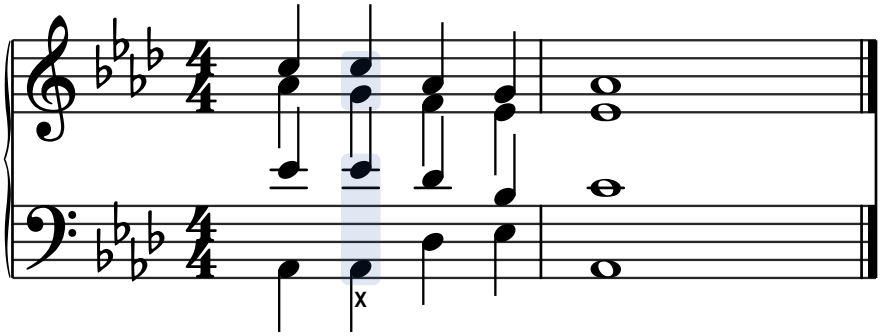

A. 5/3 (no figure) B. 6/♯5 C. ♯6/5 D. ♭6

6. This passage is in B♭ major. Name the chord marked X.

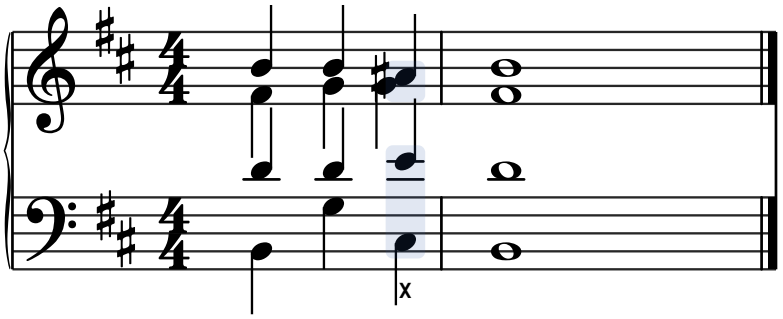

A. IVb B. II7 C. I D. I7d

7. This passage is in A♭ major. Name the chord marked X.

A. I7 B. VI7b C. VIIb D. Vb

8. This passage is in B minor. What kind of chord is X?

A. a diminished 7th B. a Neapolitan 6th C. a half-diminished 7th (VII7 in a major key) D. a secondary 7th

ANSWERS (FOR MUM)

1. **A: VII7d**. X is B♯–D♯–F♯–A with A in the bass: VII7d, a diminished 7th, third inversion.
2. **A: I7d**. X is D–F♯–A–C♯ with C♯ in the bass: I7d, a secondary 7th, third inversion.
3. **B: VII7d**. X is E–G–B♭–D♭ with D♭ in the bass: VII7d, a diminished 7th, third inversion.
4. **A: VI7**. X is B–D–F♯–A with B in the bass: VI7, a secondary 7th, root position.
5. **D: ♭6**. X is N6 (A♭–C–E♭). Counting up from the bass C: ♭6. The accidental shows a note that differs from the key signature.
6. **D: I7d**. X is B♭–D–F–A with A in the bass: I7d, a secondary 7th, third inversion.
7. **A: I7**. X is A♭–C–E♭–G with A♭ in the bass: I7, a secondary 7th, root position.
8. **A: a diminished 7th**. X is A♯–C♯–E–G (VII7b): a diminished 7th. Built on the raised leading note, it is a stack of minor 3rds; it resolves to I.

Day 75: Review: composing (Days 70–74)

G7 Compose · about 40 minutes: warm-up 5 · teach 10 · together 10 · on his own 12 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Philip's corner, or the first two 'together' questions below.

2 · TEACH (10 MIN)

- Go back over Days 70–74: strong beats and chord notes, shape and rhythm, instrument writing and colour chords.

Show him these cards

1
Question 3 (one choice): a melody over a chord plan. Strong beats: notes of the chord.

2
Reuse the opening rhythm, changed: in sequence, inverted, or with one note value changed.

3
Stay inside the range: violin from G3, viola from C3, cello from C2, flute from C4, oboe from B♭3.

4
The other choice: the piano accompaniment is given; complete the solo part.

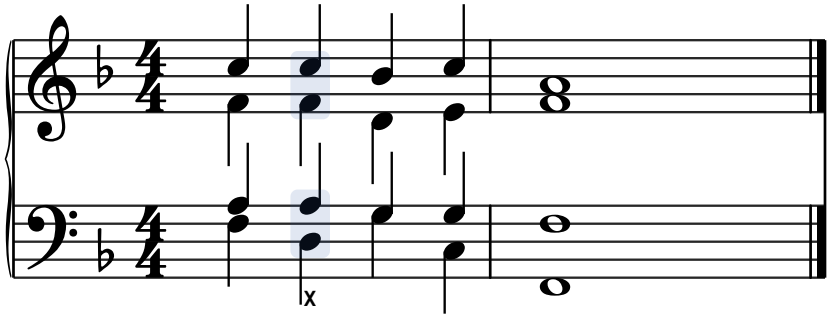

5
Over a Neapolitan, use the ♭2 and let it fall to the leading note.

3 · DO TOGETHER (10 MIN)

- A full question 3 from the lesson pack, timed at 35 minutes, marked with the checklist.

Four questions to work through together

1. This passage is in F major. Name the chord marked X.

A. VII7b B. VI7 C. V7d D. VII7

Answer: VI7. X is D–F–A–C with D in the bass: VI7, a secondary 7th, root position.

2. A 2–3 suspension is a suspension in the…

A. bass B. alto C. tenor D. soprano

Answer: bass. In a 2–3 (bass) suspension the bass is held and falls, making a 2nd with an upper part that becomes a 3rd.

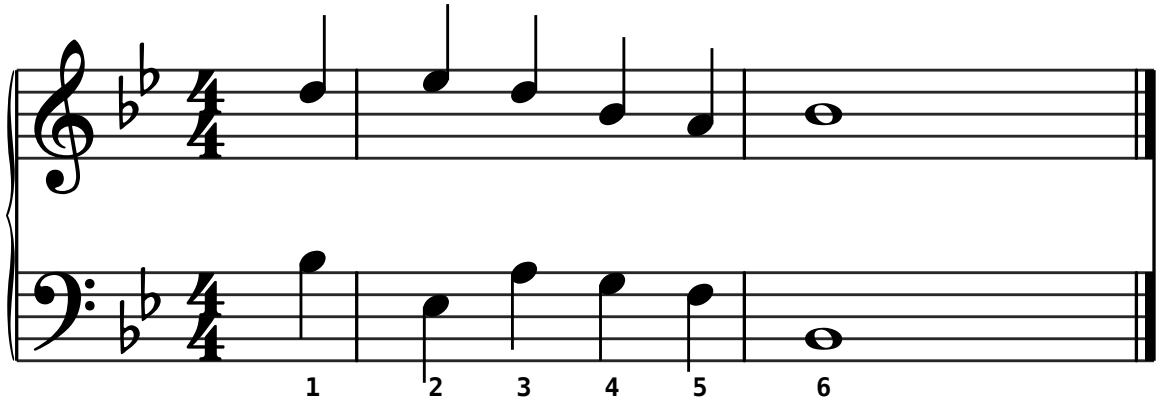

3. What does this mean?

cédez

A. as if, almost B. mute (French) C. back to the original speed (French) D. slow down (French)

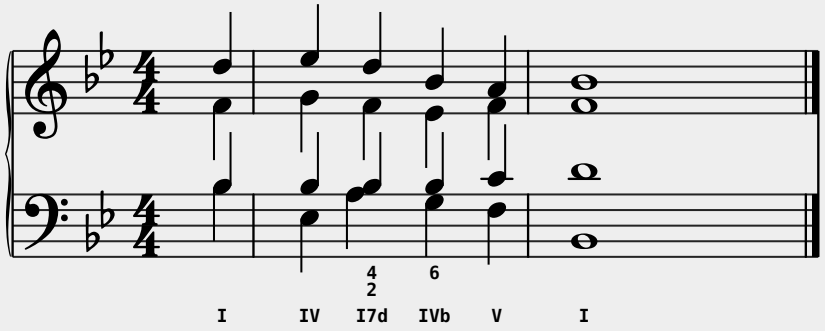

Answer: slow down (French). cédez means "slow down (French)".

4. The melody and bass are given (B♭ major). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

Write the figures under each bass note.

Answer: One good figuring: 5/3 · 5/3 · 4/2 · 6 · 5/3 · 5/3.

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

TODAY'S COMPOSITION TASK

Write a melody for violin over this chord plan. The first bar is given; continue to the end of bar 8.

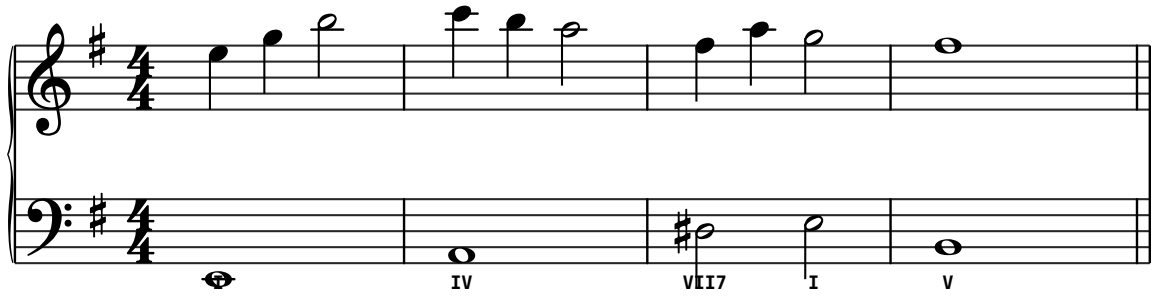

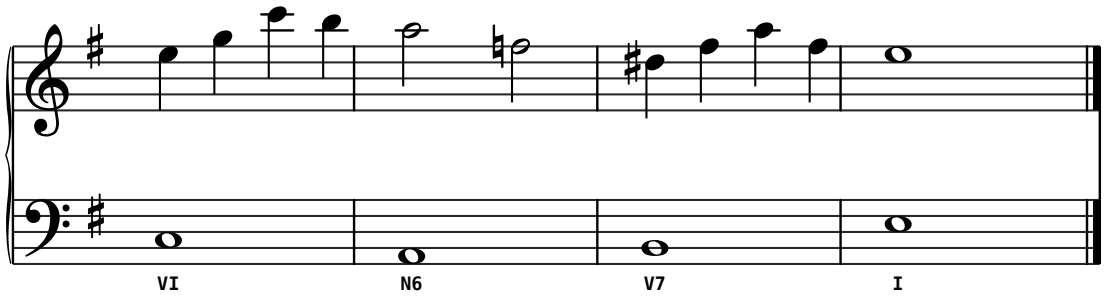

violin range: G3 upwards.

Checklist

1. Every strong-beat note belongs to the chord underneath (other notes may be passing or auxiliary notes)
2. The opening's rhythm comes back, changed or developed
3. A clear shape with a high point, mostly steps with some leaps
4. Bar 4 sounds like a half-way point (imperfect cadence); bar 8 ends on the tonic
5. Leading notes rise and 7ths fall where the chords change
6. It suits the instrument: range, breathing or bowing
7. Tempo, dynamics with a change, slurs and some articulation

One model answer (for Mum)

4 · ON HIS OWN (12 MIN)

- Compose (Grade 7).

His worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

His choice.

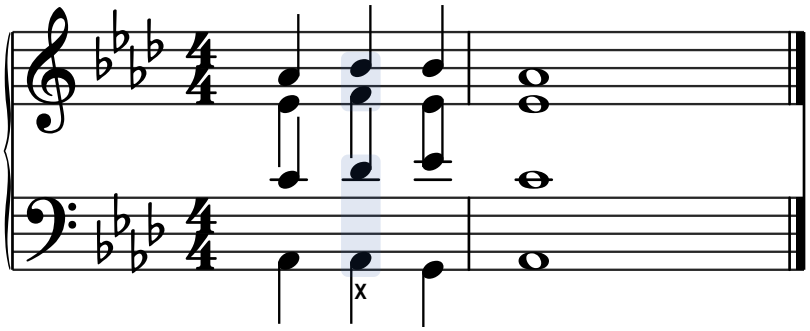

MOVE ON WHEN

He scores 14/20 or better with the checklist.

Philip's worksheet · Day 75

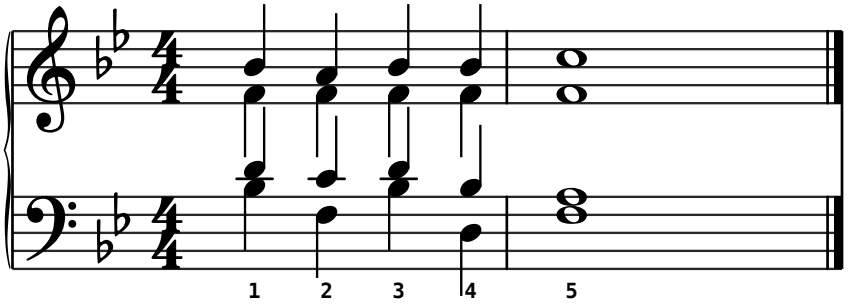

Name _____ Date _____ Score ____ / 8

1. This passage is in A♭ major. Name the chord marked X.

A. VI7 B. I7 C. II7d D. V7c

2. Where could you add a suspension? (B♭ major)

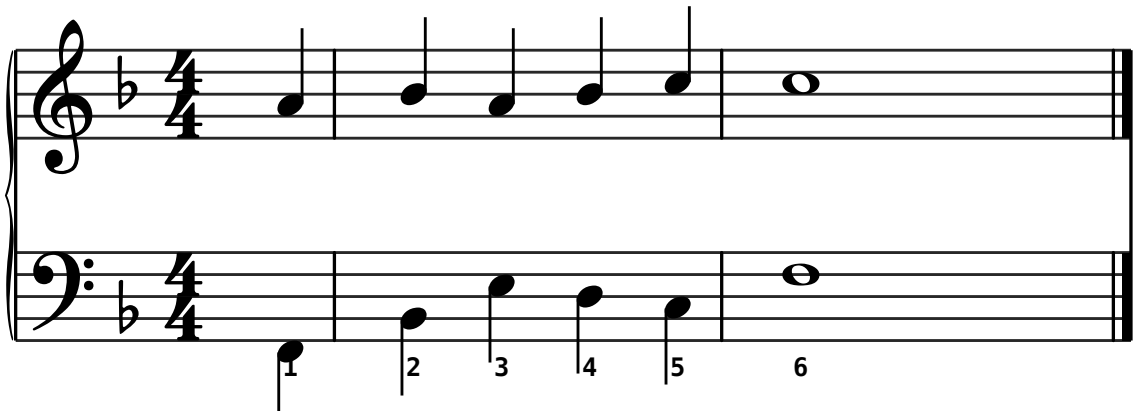

A. soprano, into chord 2 B. alto, into chord 2 C. soprano, into chord 3 D. alto, into chord 5

3. What does this mean?

sostenuto

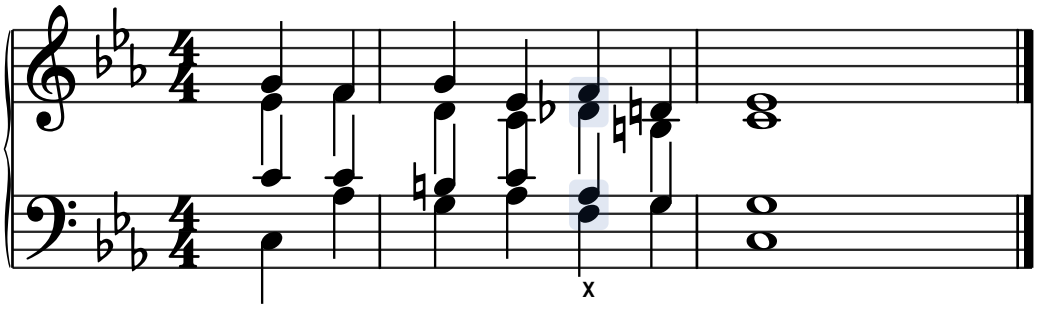

A. divided: players share the notes B. bow near the bridge C. very (French) D. sustained

4. The melody and bass are given (F major). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

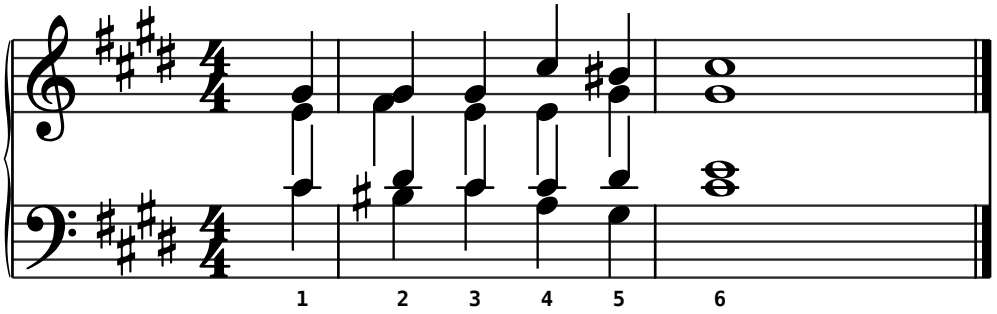

Write the figures under each bass note.

5. This passage is in C minor. Name the chord marked X.

A. V7b B. VI7b C. N6 D. VIb

6. Where could you add a suspension? (C♯ minor)

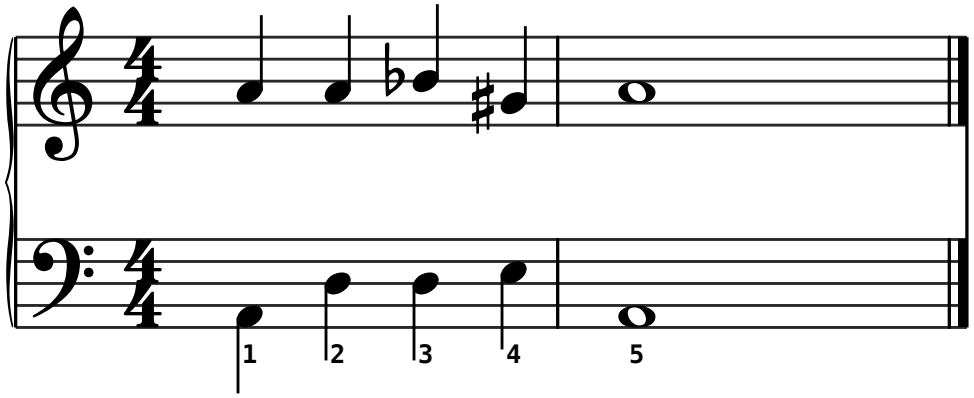

A. soprano, into chord 5 B. soprano, into chord 2 C. soprano, into chord 3 D. tenor, into chord 4

7. Which term means "flutter-tonguing (German)"?

A. Flatterzunge B. lacrimoso C. tempo primo (Tempo I) D. pesante

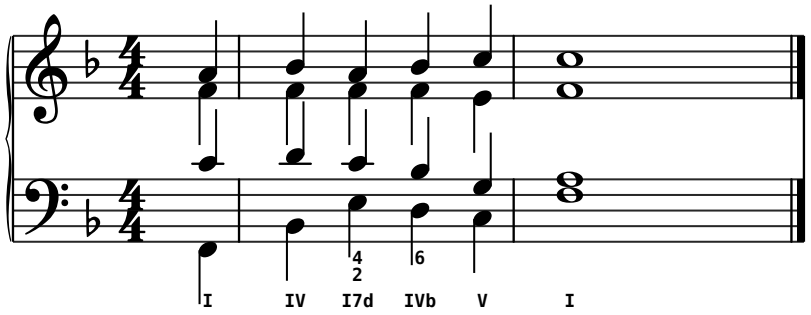

8. The melody and bass are given (A minor). Choose the figures for each bass note to show the chords. A blank (5/3) means a root-position triad.

Write the figures under each bass note.

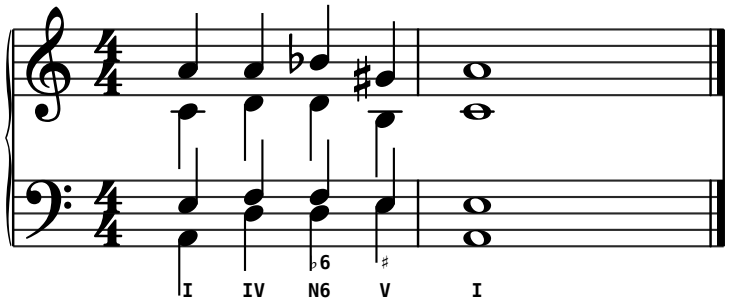

ANSWERS (FOR MUM)

1. **C: II7d**. X is B♭–D♭–F–A♭ with A♭ in the bass: II7d, a secondary 7th, third inversion.
2. **A: soprano, into chord 2**. In the soprano, hold B♭ from chord 1 into chord 2, then fall to A: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
3. **D: sustained**. sostenuto means "sustained".
4. **One good figuring: 5/3 · 5/3 · 4/2 · 6 · 5/3 · 5/3**.

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.

5. **C: N6**. X is D♭–F–A♭ with F in the bass: N6, a Neapolitan 6th (the major chord on the flattened supertonic, in first inversion).
6. **A: soprano, into chord 5**. In the soprano, hold C♯ from chord 4 into chord 5, then fall to B♯: a 4–3 suspension. It works because that part already moves down by step there, the held note clashes with the new bass on the beat, and the note it resolves to isn't doubled.
7. **A: Flatterzunge**. Flatterzunge means "flutter-tonguing (German)".
8. **One good figuring: 5/3 · 5/3 · ♭6 · ♯ · 5/3**.

Marking: start from 15. Take off 2 for each figure that gives a chord without the melody note or makes a bad progression; 1 for a weaker choice. Other good figurings earn full marks.
